Customer Reviews

bought it for my wife as gift she is starting her custom cake decorations and it has great information along with great ideas to get you started

This doesn't teach a single thing. Pictures of different designs. Not a beginner's book.

This was a gift with all kinds of gadgets included for my 10 yr. old granddaughter who loves to cook and bake, and BEFORE I got her ALL THESE ITEMS SHE HAD MADE & decorated 2 birthday cakes that looked like it was decorated by a pro! Well, as any grandmother would do, I headed straight to , & bought her the beginner book on decorating, which she loved, but didn't stop there, also included lots of things she would need. She loved it and when she said that-- back to for another batch of gadgets, decorating tips, etc. ! She loved all!!!

Shipping was fast. Nice book.

Great amount of information..love it. Great for anyone
