Veritas Prep is the largest global provider of test prep and admissions consulting services, offering industry-leading programs to help applicants improve their test scores and gain admission to the world's best colleges and universities and graduate schools. More than 50,000 students have chosen Veritas Prep to gain admissions to the world's elite schools. Founded in 2002 by graduates of the Yale School of Management, Veritas Prep offers its flagship, live GMAT prep course in more than 90 cities worldwide and as an interactive online course available to students everywhere.

Books are in great condition but they lack an answer key that includes how to solve the problem. It's difficult to improve if one doesn't know where they are messing up, which is the whole purpose of these books.

This was an absolutely amazing course. Download the free ios/andriod videos too. This course focuses on building your fundamental skills and then teaching you the strategy to go along with it. The first time I took the GMAT, I studied exclusively with the Kaplan books and scored 640. I studied about half as much with Veritas, but I felt much more prepared and scored a 680. Worked for me!

Carlos was awesome. I got the books in a day, the books are in a very good condition, with all answers next to drills erased out or new printed pages of questions attached where scribbled/solved. This in itself shows so much effort and thoughtfulness. I got the books not only at a good price, but also as early as I could. Carlos' professionalism is commendable! Thanks again to him!

I liked the lessons of Veritas Prep, but I don't know why they have not included the answers to the questions on the back of the book? I mean there is the answer choice sheet but there is no detailed explanation? I understand that these are to be taught in classes mostly, but how about if someone needs to buy them and wants to study on his/her own?

Closing 50 I was worried about preparing for the GMAT, and how I would cope with material 25 to 30 year olds do best at; these books gave me the anchor that I was hoping to get, and didn't have time to sit through formal prep classes. I recommend this package.

Very good value for the money. Note that the package has definitely been opened. With that being said, all my books were still sealed and the practice test code was still valid.

1. These books now coming in pack of 12 are very well structured and help to gain maximum base knowledge.
2. Practice questions at the end are very good and cover all types. (Though not very tough).
3. Best thing about these books is that they enable you to tackle varieties of questions with proper approach to tackle.

Highly recommended.

This series is pretty lengthy, and i am you need a lot of time. Got 740 for Gmat, not sure if it is the books but something helped
