Starred Review. PreSchool-K • Sometimes parents are too preoccupied to help their children get a snack • even in prehistoric times. When a young cave boy tells his parents, "Me hungry!" all he gets in response is a loud, "Me busy!" What's a Stone Age boy to do? He hunts, of course. But a rabbit eludes him, a porcupine is too sharp, and a tiger is too mean to tangle with. A hungry mammoth is the perfect catch • the new friends find food together. Tankard's bold, thick black lines, done in ink and digital media, outline the youngster and his many choices for a snack, allowing the characters to jump off the monochromatic pages. Minimal but effective text perfectly complements the expressive prehistoric family. This energetic story comes full circle with a humorous punch line that will make all children with busy parents laugh out loud. • Kristine M.

This is a sweet story of a young caveman boy's attempt to get something to eat. My 4 year old son finds this book very amusing. He giggles through most of the book. We've only had this book for a few weeks now and he's asked me to read it almost every night.

Tankard has a distinct style of art and I love it. This is a great story. It is told quite simply and that's at least half of why it works so well. I read it for my niece and my nephews and they loved it, too. ...but it lives on MY shelf.

My daughter loves this book. I highly recommend this for anyone with a toddler. My child likes when we give the characters different funny voices. One of the few things that keeps my kiddos attention for awhile.

Awesome book! Great for beginners

I am so glad I found his books! Grumpy Bird is an instant hit with 3 year olds, Boo Hoo Bird is super sweet, and this book is funny! We loved the caveman-like speech and illustrations to go with it! I read this first and giggled, then read it to the 5 and 4 year old I watch, both wouldn't put it down. I plan to read it to my preschoolers in the fall! I recommend all of his books!

Bought this book upon a recommendation and my 2 year old loves it!!! He thinks it's hilarious and always repeats it after me!

Inthought it would be a better story. My 18 mos. old grandson seems to like it ok but I thought it would talk about eating and hungry. Got it from a British vendor. Quick service and cool to have it printed in England. Therefore, slight differences.

Me Hungry! is my 3 year olds FAVORITE book.It lets him be a being who has needs, overcomes obstacles, gets tough and learns independence, cooperates with others and becomes self reliant! WOW.You can read this one a million times and never get tired of it.Tankard's best!
