Hirohiko Araki made his manga debut in 1981 with the Wild West story *Busôfuden* 'Poker'. He experimented with several genres, including mystery (*Mashonen B.T.*) and action-horror (*Baoh*), before beginning *JoJo's Bizarre Adventure* in 1986. Propelled by imaginative storylines, weird imagery and individualistic artwork, *JoJo's Bizarre Adventure* is one of the longest-running and most popular shonen manga ever. Araki's current works include a new series set in the JoJo universe, *JoJolion*.

One of the greatest comics of all time enters into one of its most famous arcs of all time. Globe trotting adventure with Bizarre powers against one of the greatest villains of all time. You really can't

go wrong. Highly recommend reading Phantom Blood and Battle Tendency first though, no matter how 'accessible' people may tell you think arc is.

My oldest nephew loves Jojo's manga. He loves the manga and all that is jojo. These look awesome in hardcover. Got him another one and loved it as well. Waiting for the new one when it comes out in february i believe.

I love the fact they made it hardcover. I got to admit a little sad story wise they move away from Hamon but otherwise enjoyed a lot.

Buying all three volumes of this great series and if you keep your eyes peeled often has them on sale. Beautiful books, great format for a fantastic manga.

I'm a huge fan of this series and I was so happy to get this volume for so cheap! Jotaro is one of my favorite Jojos so it was great all around! Not to mention, it arrived a day early which was a wonderful surprise!

Awesome Radical Fantastic Amazing Spectacular Perfect Wonderful Stellar Supreme Astonishing Mind-Blowing A Blaze With Sincerity Kindness and of all Heartfelt.

The start of a grand adventure!! New to the series or not, anyone should love Stardust Crusaders no matter what. The only thing I'd say for someone starting out in this is to be weary of a bit of gore now and then, but overall it's pretty great and tame. Seeing the original art and story and comparing it to the animation put out for it is a real treat- you get to see and read different details you wouldn't know about otherwise! Very recommended, please show this series more love in the U.S. .

If you watched the anime and heard that you need to read the manga, you should. While the David production was a great anime and very detailed, they had to leave out certain things, also you get a great feeling whilst you read this and I feel it is not spoiled by watching the anime. If you have not watched it and just wanted to see what jojo is, then this, along with its predecessor Jojo's Bizarre Adventure part 2 Battle Tendency (my personal favorite arc) is a great place to start.
