Guitar Recorded Version series might be the best in the market, and this book is no exception. I had to familiarize myself with some of these songs--Fearless from Meddle in open G tuning is a blast, and good example of what I'd forgotten in the Pink Floyd repertoire. No interest in some selections--they just don't come across as acoustic-oriented--Comfortably Numb, for example, but critical notation for Mother, Goodbye Blue Sky, among others--all very detailed and complete. Excellent book.

Excellent, bought it for "Pigs on The Wing 1&2" and "Dogs". Best transcriptions of the album versions I've found by far, totally accurate. Only improvement would be for the exact strum patterns to be included (e.g. the exact "up" and "down" marks), but with a little work you can do this yourself.

Great book! Helps showing how they use progressions and how the songs are really played! Would recommend

Good

nice book

Pink Floyd - Acoustic Guitar Collection
Great stuff
Wonderful book - nice to have the tab and tunings for many of the songs here
Fearless is welcome (its in open G - taught to Roger by Syd incidentally)
Nice to have the solo for Cymbaline (a standout from the More soundtrack)
Pillow of winds is an odd choice (also an odd tuning for this Wright/Waters) - but its really nice to have the guitar tab & chords for songs like Green Is The Colour, Hard to fault - okay, theres no Syd (!) but a lot of that stuff isn't so popular here in the States (in the UK there was the first hit singles) so you have the odd Wall track and Wish you were here track
Its a softcover volume. Tunings listed for songs that aren't in standard (Pillow of winds, Fearless, etc)
Don't think any of the songs need a capo, but this is a good set to start with. The chords seem right for the songs that I'm familiar with.
No cd or backing tracks, but its nice to have tablature for a lot of these songs (More songs, Meddle) as they tend to be obscure (by clouds

A welcome addition, with some tabs that have not been previously published. It's worth noting thought that there are a number of inaccuracies in this book, chief of which is 'A Pillow of Winds' - the 'weird tuning' noted by another reviewer is not in fact the one used (the track is done entirely in open E minor, with some electric parts in standard tuning). There are a few glitches in 'Fearless' too.
Worth getting if you don't have any of the tabs, debatable if you only need a few.
