## Customer Reviews

A few years ago one had the ability to choose from two competing and good travel guides, Woodalls and Good Sam. Now they have been consolidated and we are forced to use Good Sam RV Travel Guide as the only comprehensive campground reference choice. I would love to say that this is an improvement but that is not the case. The 2014 travel guide appears to have declined in quality considerably over the past few years. The guide is less informative than the 2010 guide. For example Boyertown Campsite in PA is described in this 2014 edition as having an 8 star rating, costing about \$40 per night and apart from the address, nothing else is mentioned about the site. In the earlier 2010 guide Boyertown campsite is listed as having 84 camping spaces, laundry, showers, 8 star rating, WiFi, Cable, RV Supplies, playground, about \$40 per night, and much more. This is one of many examples of the 2014 edition providing less information than the 2010 edition. Why is this??? Other nearby campgrounds with this discrepancy are Oak Creek Campground in Bowmansville, PA and Buttercup Woodlands Campground in Butler, PA. Sill's Family Campground in Adamstown, PA gets an 8 star rating yet miniscule info is provided about this campsite in the 2014 directory. This has the effect of coercing me as a camper to go somewhere else. So much more info is provided in the 2010 edition about Sills Family Campground such as LP Gas availability, groceries, 115 spaces, pool etc. Neither edition provides their website address. This problem is all too common in the 2014 edition. Is Good Gam trying to steer customers to certain campsites? My only suggestion is for people to keep their old directories until Good Sam starts listing all campsites by the same standard. Many campsites have web page addresses which are not mentioned in either directory. Consequently I am disappointed overall.

Waste of money. Thick book with a lot of nothing. Internet much better source. Looked up area we are traveling, book list 3 area campgrounds none in the town we are staying. Found at least 12 in the area on the internet and they all seemed to be there for several years. Don't waste your money, use your phone.

I bought this mainly for a trip to Baja. The information given about the CGs and RV parks was useful, but the guide wasn't as helpful as I'd have liked because so many places weren't even listed. It would also have been beneficial if better directions were given to the places that were listed. Still it was a helpful and valuable tool and I expect it will be even more helpful in the good ole USA.

My goodness! This is amazing! I was a bit overwhelmed until I found the alphabet tabs. I labeled the areas I wanted to look at more closely and proceeded to find the answers to where to call to reserve spots during my camping trip. I found restaurants, showers, puppy areas, you think it up and I think you may find it in this amazing book! Any one interested in seriously going on a well planned, well coordinated RV trip you absolutely must have this book! Since receiving it and figuring out how to find things, I've thought of at least three other places I want to go in the future! Really fun and informative!

It turns out that there wasn't much useful information in this book that I couldn't have just found on the internet. The book is big and bulky too.

My husband and I are planning on getting a travel trailer soon. My parents, many years ago, were members of the Good Sam Club and always had nothing but good things to say about their membership. Now, we won't be joining the Club until we actually get our trailer but I wanted to start doing some research - on campsites, etc - so did order their guide. This guide was just what I hoped for, with info on U.S., Canadian, and Mexican campgrounds with listings of their facilities and accommodations and 2013 prices. It is a huge book at close to 1,700 pages. It did come with state (and Canadian province) index tabs that I was able to attach so it is easier to find areas we are interested in. It doesn't list federal campgrounds so another book I think is very helpful is *Ã* *Â* Guide to Free Campgrounds: Includes Campgrounds \$12 and Under in the United States (Don Wright's Guide to Free Campgrounds). This Good Sam book was just what I expected and wanted. I think it'll

be a great help when we actually are able to get on the road and is a good reference for planning right now.

We have used the Woodall's travel guide to find rv parks that would accommodate our rig. It was a great resource, describing the availability of hook-ups, waste water and fresh water availability at sights, how many sights with utilities, amenities provided like picnic table and fire pit etc. Now it is the Good Sam's RV travel guide it is an even better resource.

I've purchased these for several years. Use them often when we are traveling. Great source of information and is accurate 95% of the time.
