Sara Moulton calls *Hungry Halloween*, "The Perfect Little Halloween Book." She states on her website, that "now that I have looked at *Hungry Halloween* I must recommend it to anyone who loves to have fun on this very unique holiday. As Beth says in her introduction, 'Whether you are baking to host an elaborate Halloween bash or are simply in search of a fun treat to serve your kids on beggar's night, *Hungry Halloween* is a great resource filled with delicious and imaginative recipes.' Now, I can testify to the imaginative part -- when I did my show on the Food Network, every year for ten years we did at least one Halloween show and it became hard to find new and unusual stuff to demo. Everything in this book seems new and unusual to me and, the recipes have the added bonus that most of them are made from scratch. No scary ingredients used here! Beth developed, styled and photographed the 44 recipes herself. There are many 'how to' photos and templates at the back of the book to be used for design. It would be easy for anyone, even a novice cook or baker, to follow these recipes." --Sara Moulton, Chef, Author, Television Personality, September 30, 2010

This book is so unique, page after page of incredible culinary concoctions to make any Halloween party- goer OOh, and AAh. Author Beth Jackson Klosterboer, has served up an amazing array of ghoulish treats, with full step by step photographs. An amazing way to make your Halloween get-together unique, check out the the Portrait of a Monster Artichoke, and Spinach Dip decorated with a blue corn tortilla picture of the Frankenstein's Monster; phenomenal. One note your cooking skills

should be up to snuff, this is definitely not a book for the total novice, a basic knowledge of pastry making, will certainly come in handy as well

I bought this book because I love checking out the author's website with her neat and creative ideas. The book also had some great ideas which I am anxious to try out. The only issue I really had a problem with was the use of black food colouring. In some cases where the food colouring was just painted on, all I could think about was the black teeth, mouths, and hands when guests ate the food. It'd be terrible to try and wash off and also (and this part is just a personal opinion) I just don't think consuming that much dye is healthy. Wouldn't deter me from buying the book again, but it does deter me from some of her recipes.

This may be Beth Jackson Klosterboer first book but the passion she displays shows a true dedication for the ghoulish. She "gets" exactly what Halloween is - fun, creepy and sometimes just a touch ghastly. Sure this may make some moms cringe a little, but there is plenty here for the whole family to enjoy. Some of my favorite ideas are the green tinged popcorn (a sweet concoction perfect for filling a cauldron), a creamy vanilla panna cotta "brain", and calzone "bones" filled with a ricotta cheese with marinara blood on the side for dipping. This is a seriously fun book and I am counting down to Volume 2!

This book has so many really cute and creative ideas in it. Even if you never make them, it's a really fun book to look at the pictures, and pretend you could be that creative! I have tried many of the recipes in this book. I have found them to not only look good, but they were also the main topic of conversation at the gathering. And the best part of all..... they were YUMMY!!!

Hungry Halloween: featuring Movie Monster Munchies, Bewitched Buffet, and Dead Man's Diner (Volume 1)The book is full of entertaining and creative recipes. Some are challenging but the instructions are clear and complete. The variety of ingredients are readily obtainable and makes it appealing to all ages and pallets. The additional advice on decorating is nice to have. The author truly knows how to celebrate Halloween!

Love the ideas in this book

Most of the recipes you can find online, not worth buying in my opinion.

Cute book with lots of great ideas.
