"This is a great book for her to share with...daughters. It also makes a great gift for tweens, sorority sisters, and DIYers!" - Style-Wire.com

It just was not what I was expecting. I am sure the book would be great for some one who is more experienced at braiding hair, but as a beginner at braiding hair the book was just a little bit over my head.

My daughter loved receiving this as a gift for Christmas. Some of the braids are really nice because they have a new, modern flair to them. So many of the old braids are just tight and old fashioned. This offers a nice new selection.

The book is nice, but I think they could have had better written instructions, and maybe a few more incremental pictures for each style.

my grand daughters are very pleased with this book and have me try different braids on their hair

Love this book!! I have hair to my waist and keep it braided and up for summer. This book gives clear instructions and quality pics to follow. I highly recommended this book to anyone who wants to learn to braid!! Thanks for a great book Sasha!! :~)

this is a very helpful book for someone that does not know how to braid.

The photographs are beautiful and there are detailed directions. Having said that, this book is like an exercise bicycle. I own it but I never use it.

As advertised.
