Hi, my name is Wanda. I'm one of the students in Ms. Frizzle's class. You've probably heard about Ms. Frizzle. She's always taking us on amazing field trips, and we learn tons about her favorite subject -- science! And when we were working on our whale unit, wow! What a field trip! We went on an actual whale watch and saw real whales in the ocean. But we had no idea how wild a field trip could be. Join us for a whale of an adventure!

Very nice chapter book series. My daughter loves the cartoon and these chapter books are great to go along with that. They are educational and fun and funny. They kept her attention very well and she learned a lot. I highly recommend them.

Been teaching my daughter science the same way I learned. These books are amazing and brought back the love I have for Ms. Frizzle.

Great educational books

My daughter really liked this book.

My 7 year old boys love the Magic School Bus books. They are fun and entertaining.

She really enjoyed the facts that were boxed separate. Matter of fact she asked me for my notebook paper so she could write the facts down. She enjoyed the book so much, her mom asked to read it again so she could look for things she might have over looked the 1st time through.

This is currently a favorite series for my nephew, and quite popular with his teach parents. His vocabulary is growing rapidly and he's really learning to love reading.

My 8 year old son devours the Magic School Bus books! Reading level is suitable, education level is right on target and holds interest well. More please...
