Jon Stone was the first head writer for Sesame Street and was one of the show's principal directors and producers for over 24 years. --This text refers to an out of print or unavailable edition of this title.

My three year old grand daughter loves the suspense in this book. It is a good way to get them to practice facing their fears without having to face it alone (like the middle of the night). Practicing the motion helps when the "real thing" occurs. It is very entertaining--of course the reader needs to get into "character". I heard there is an Elmo book that is similar that I'd like to find as well. You won't be disappointed with this one (Unsure if I've ever said that about a Golden Book before)...

Cute, interactive story that is fun across a broad age group (toddler to young child) • both my 18-month-old and 4-year-old love this book. For younger toddlers, they may not "get" the end of the story (revealing that Grover himself is the monster at the end of the book), but the most fun is in the pages before anyway, the child turning the pages and Grover frantically trying to keep the child from doing so. When we first started reading this book, neither of our children was familiar with Sesame street, so I'd say the appeal of this book is independent of the prior knowledge of the grover character • to my children he was just a cute monster and the story made sense just the same. We've gifted this to new parents and for birthdays as well, highly recommend.

My daughter has been having problems with fear of monsters at night. This book makes her laugh and she has fun turning the pages despite Grover's protests. I love it because of the throw back character from my childhood. Not annoying to read at all and the related app is super fun.

We found this classic on sale on kindle and were thrilled. One of the best old-school books out there! I was tickled to see this book for a good price for my kindle. Now we can have a few digital books for when we travel and don't want to carry around bedtime stories.

I read this book years ago to my children and now I'm reading it for my grandchildren. And the grandchildren love it every bit as much as their parents. It's a great book for dramatic reading and the kids love to mimic that when they say they're reading it themselves.

I love this book! My mother read it to me when I was a kid, now I'm reading it to my kids! I use to make sounds of the pages turning and crashing, as Grover tried to tie, nail, and brick off the pages. Now my kids are doing the same! No Ipad, tablet, phone needed!

I read this to my children when they were young and they loved it, it always made them laugh and smile and cherished our story time for years. Now I'm expecting my first grandchild so this was at

the top of the list of things to buy for story time in the future!

My toddlers love this book. They must love being defiant and scaring poor Grover. The only thing is that my Grover voice is such a sad attempt. Plus, it's short. Children are easily satisfied. Until they want it read again, which is usually within two minutes.
