Customer Reviews

Definitely a master guide for Twitter. This book goes over everything you need to know from beginner to advanced and even gives really good strategies that most people and businesses don't think about. Topics like the perfect timing for your tweets, twitter jargon and what they all mean, how to set up advertising campaigns, how to use third party vendors for stats and to get your tweets out automatically throughout the day, what type of hashtags to use, and how to make your conversations go viral. My favorite thing about this book is that it also goes over what mistakes to avoid and how to best utilize your Twitter account to expand your business and connect with customers (and reach out to new customers) in a whole new advanced way.

This book gives you an overview how to use twitter for connection with customers, how to do your marketing. If you have any business no matter if it's a big or small you can use this platform to grow it. Connecting with your customers is number 1 benefit of using twitter today, but it's not only one benefit. Don't wait too long and learn more about that today.

Twitter is one of the most used social media platforms in the world and this book has everything you need to know about it. This book teaches valuable techniques ranging from setting an account properly, to making successful marketing strategies using Twitter. Great read for any business trying to implement social media effectively. Both novice and advanced people (in social media) can definitely benefit from the contents offered in this book. I highly recommend it.

As far as I know, twitter has been one of the platforms with strong following. I would like to take advantage of it to grow my small scale business respectively. I came across this precise guide that gave me a lot of ideas and advise on how to capitalize this form of social media to my advantage. It has explained everything that I need to know in terms of social media marketing via twitter. It was all crystal clear.

Twitter is considered as one of the top social media applications we have now so it is inevitable that this tool will be used in all e-commerce activities. This book highlights that and more. It discusses how one seller can market his/her products properly via twitter and make expose it to millions of users around the globe. Effective strategies and easy-to-follow steps were discussed and enumerated. Short but concise. This can be a very effective tool however the limited characters allowed on twitter may be a downside when you promote a product using their platform.

Great ideas put all together for Twitter marketing specifically for new and existing business . Through this Book You will learn How You will setup new Twitter account,why You will use Twitter,Tools in Twitter,science of tweeting better, Twitter Marketing , Twitter advertising.I would recommend this book for new online business owner.

I am new to using twitter and I found Grant's book very helpful. Grant provides a very full steam ahead approach for using twitter, to engage followers with good, integrated web presence. This book contain simple advice on how to be more valuable content creator. Sure you know most of them, but reading this book to get the rest worth it. I would recommend this book to anyone who was going to use their site to promote themselves or a product.

This is a truly great book that covers everything you need to know about Twitter and Marketing on Tweeter. Before reading this book, I knew something about Twitter, and I thought that I knew enough but this book showed me how wrong I was. It has a lot of useful advice and guides to learning to manage your Twitter account and how to use it for your business. It starts with some basics like setting up your account and Twitter jargon but quickly goes into details on how to make good tweets and do Twitter Marketing. Overall, a very useful book and I would highly recommend it.
