This book is a treasure written by a gentleman who is himself a treasure and with whom I've had the great pleasure to speak. He has been a missionary (25y) in Japan and has spent his life loving and teaching others of God's great love for them. I've read and have a number of books on this subject and this author speaks from a loving, compassionate heart to those that have been confused with the Watchtower doctrines, as well as giving clear, knowledgeable explanation as to clarification of that confusion. Those opinions that state that he doesn't know his subject are, indeed, themselves obviously lacking in familiarity of both WT and Biblical doctrines. If you have a love for and desire to reach the precious souls that are confused and spreading unbiblical doctrines and false, twisted assumptions imposed upon the true gospel message, this book is an ideal choice. The seller had this great resource out to me in a flash and as always I so appreciate and their associates. Thanks so much with blessings, pb

Very informative. It's good to know what these people believe so you can witness to the witnesses.

Different perspective on how to witness to JW's without getting argumentative and tangled in circular reasoning with their many doctrines. Many ways to penetrate and get them to independently think about what they have been taught by the Watchtower and if the Bible actually backs it up.

This book provides good thought-provoking questions on doctrinal points to bring up regarding Watchtower theology. More importantly than the content, Wilbur emphasizes a different approach on how one brings up these points. When discussing religious beliefs, there is a tendency to want to "win" the argument at all costs. Wilbur reminds the reader that a person joins a religious community either by a) being born into it or b) having some emotional need met. The actual doctrine is rarely the initial drawing factor. Wilbur emphasizes establishing a long-term relationship with the Jehovah Witness. It is only through friendship and a Christ-like love that you will be able to penetrate a closed mind and get them to think critically about what the Watchtower teaches. Jesus said that we (his followers) will be known by our love; this book captures this idea in an insightful way.

I would recommend this to anyone that knows a Jehovah's Witness. The best way to get to their hearts is with love, confrontation and arguments won't get us anywhere. This book tells you how to do that and make them see the truth and light with patience and love. It has great information about the Watchtower, their shady history that needs to be known and great bible verses to share with the JW. Make sure to always be in prayer as you lead your friend to the real truth!

This is a drawn out method, but it works, as I can attest. Ask leading questions (not about doctrine, where they have the answers memorized) that lead them to think. In my case the Holy Ghost Repair Service of Denver worked on me for three months to lead me from Hinduism to Christianity. At times I became frustrated, but there was not one argument in the whole three months. The author provides hundreds of questions and possible answers they might give - including staring at you blankly since no one ever asked about that before.

Couldn't really witness to JW with these ideas. I will just keep praying that the Holy Spirit will work in their hearts.

Excellent, informative book. Good ideas for witnessing by having them question the weaknesses of the organization first.
