"Pocket Naturalist Guides are to nature-loving backpackers what CliffsNotes are to teens trying to navigate Shakespeare: essential." — Backpacker Magazine

Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a

series of state-specific guides to common species and natural attractions and a children's book on evolution.

I bought this in case it is ever needed (I hope it isn't). I know nothing about hunting so I am not rating it on info or illustrations, but rather durability. I own MANY Kavanagh guides and was disappointed to find that this one was not laminated, but was made of a fairly thin (coated?) paper. Of all the guides he has made, I would think this one deserved and necessitated the highest durability. Identifying butterflies is a lot less messy than gutting a deer. Poor decision to not laminate this guide!

Grand son used it when he shot his first Deer

This is a good quick reference guide to Field Dressing most animals. A good starter guide for the beginner or the expert.

Great backpacker guide, easy to learn. Great survival packet and very light weight . A must have for first timers .

Great for beginners and it covers all types of game. Very easy to pack pretty durable pamphlet

All the basic info needed for the novice. A great carry in your BOB, hunting gear or vehicle.

Water resistant and gets right to the point, no pun intended. This book stays in my hunting backpack.

Happy with my purchase. Thanks.
