Ms Archer Butcher's spiritual insights will not be totally unique to well-read students. What IS unique, is her storytelling ability. That's a great combination and makes this book a real pleasure. It's also, I believe, an important document in that it's a woman's voice and a woman's spiritual journey. Not that a man could not relate--not at all--but voices like Patti Simpson's, Jo Leonard's, and Anne Archer Butcher's occupy too small a space on spiritual bookshelves. There's so much more to life than what meets the eye, as well as the mind; Anne's collection of stories, at times gripping, always heartfelt, will help lift the veil for the reader--even more, it will help the reader find, heed, and partner with divine guidance.

This book is a thrill ride at times when the author is living on-the-edge in life threatening circumstances. At other times it's just whimsical fun and you wonder what it will lead to. Some may get distracted by the Eckankar message in this book but that would be missing the point. Anyone that applies the practices laid out in this book can have these types of experiences in their daily life. Anyone that desires to can live on-the-edge and benefit in the same way the author has. The principals are a universal in nature and limited only by the thoughts and feelings of the experimenter. The author shows how she opened herself to a larger viewpoint, that is what is required, let go of preconceived ideas and take a chance. It's your life go for it.

This is a wonderful book, very well written, interesting and easy to read. Based on the author's personal experiences it gives a very clear link, exploration and explanation on how there is a very real loving presence and higher inner guidance that we can experience if we pay attention. It is possible to have a real and loving communication and relationship with the Divine. Whatever one may feel, think and experience it to be. Very liberating. I have used some of the spiritual exercises the author offers in the book with good results. Particularly singing the HU, which I continue practicing every day. I find it very uplifting, it helps me to center and keep balanced. I thank the author from the bottom of my heart for sharing her experiences in this book. May it uplift you the way it did me. For me it was a confirmation of the sacredness and unity of life, of the fact that it is not total chaos. There is an overall purpose and meaning in life. We just need to find it for ourselves. Happy reading!

Hard to put down, 'Inner Guidance Our Divine Birthright' is a gift to all seekers. Of the countless books I have read on spirituality, 'Inner Guidance' stands well atop; a beacon of truth and guidance specifically written for our needs and rights in these current times. Recently I read aloud the elephant chapter to my daughter. Though somewhat familiar with the Eckankar teachings, she asked "do you think that's really true?" I responded "absolutely! Not only is it true, I'm certain it's not even embellished." Having heard Anne speak a number of times, knowing the level of ethics within the teachings, I'm certain she would not deceive, she could not deceive. In paraphrasing, Jesus "these things you too shall do, and greater." I feel this book is one of the finest examples addressing some of the potential that HE was speaking of...miracles truly abound in our current times! Anne reveals insights into some of the ancient mysterious workings, the magical ways of how the Holy Spirit is constantly working with each and every one of us. Inner guidance ultimately leads us to Spiritual Freedom... often a foreign concept... also part of 'Our Divine Birthright'.

No matter how or what you believe or don't believe, in this book of Anne's experiences she shows that there is something much more than what meets the eye. Not only amazing life stories of her experiences told but great examples of those little nudges we get inside sometimes that we often chose to ignore.. It's one of those books that could change the way one might chose to think.. Enjoy..

Inner Guidance, by Anne Archer Butcher. This is an excellent book for spiritually minded people! This book answers many of the questions I've had since childhood about my inner and outer

experiences. I would love to have had this book a long time ago. It validated many of my own inner and outer experiences that were somewhat similar in nature. Her beliefs are rather like mine. I always felt someone was there, watching over me, helping me, giving me courage when I really needed a friend. I've read the book twice. It was hard to put down the first I read it.

This is a very inspiring and uplifting book that encourages the readers to have their own inner and outer experiences with spirit. The author makes these experiences sound easy to have and possible for anyone who wants enough to have them.

A beautifully written book illustrating how we can all have inner guidance at every moment of everyday. Easy to read and understand how often we have had inner guidance and not recognised it, it shows the way how simple it all is if we stop and listen to the intuition that we have. Once you have read this book you will want to re-read it and absorb the profound spirituality that it contains and benefits of making one's life more joyous, happy and above all how we can connect to this Divine Love that is ever flowing to have more love in our hearts that gives true meaning to our life. I have given this book to friends and relatives who will never be same again. It has answered many questions for them and has brought light and Sound into their lives. Truly a great book.
