Home Landscaping: Northeast Region: Including Southeast Canada (Home Landscaping)

Synopsis

Home Landscaping: Northeast Region, Including Southeast Canada, shows how to beautify 23 common landscape situations, such as front and back entries, walkways, borders, slopes, and patios. 46 design variations incorporate more than 200 of the best plants for the region. Readers also learn all they need to know to install the paths, fences, walls, arbors, and trellises that make up the designs. Step-by-step instructions show how to tackle each project. Plant descriptions also explain planting and care.

Customer Reviews

"The Home Landscaping Series promises to make your particular gardening situation easier because it's created to suit your regional needs, and it's one of the best this reviewer has ever seen. All the books in this series are perfect for first-time home owners and novice gardeners, but more experienced gardeners will find them useful to. Keep the entire series on your bookshelves...you never know when you'll be moving."Pat Regel, Book PageApril 1998"The new Home Landscaping guides... are almost like having a team of professional garden designers on hand. Each large-format, region-specific paperback... addresses realistic concerns about gardening in specific geographical regions."Rebecca Sawyer-Fay, Country Living GardenerSeptember/October 1998"There is nothing like it! This idea-filled book takes the guesswork out of landscaping so you

can focus on the fun. Designs that work, great plants you can find, accurate instructions, and detailed drawings will help you succeed."Nancy Beubaire, editor, Organic Gardening

- Approximately 400 full-color photos and illustrations- Designs covering 23 of the most common situations, such as front entries, foundation plantings, patios, and steep slopes.- Detailed descriptions of more than 200 plants that will grow well in your region, plus all you need to know to select, plant, and care for them.- Step-by-step instructions for building structures, such as paths, patios, ponds, walls, fences, arbors, and trellises.

Very practical

This is a great book for the casual gardener in the Northeast. It has wonderful garden plans filled with plants that are easy to find. I lent my original copy to a friend who gave it to someone else, so this was a replacement copy for me.

I have so many landscaping books that I never opened again after the first week I bought them. This is not one of those books. It's by far so much better than most of the other ones out there. It's well organized for info, and the plans are numerous and easy to follow. Not just for beginners. a really great book!

Home Landscaping: Northeast Region is a very informative book filled with beautiful photos. I don't think I will need another book while doing our landscape planning. Landscaping designs, expected sizes of plants and trees and shrubs, different colors and species, how to's, this book will cover all your landscaping needs if you live in new england.

helpful, but not what I imagined it to be. if you are planning a whole re haul of your yard, this book is perfect!

This book is an excellent source of ideas for gardens of many different sizes and types. It has a plant information section which is helpful in choosing the plants in your garden. I would strongly recommend it to any gardener.

I recently became interested in gardening (now that I have a yard in which I can plant). This is one

of my favorite books on gardening and landscaping. Great resource for those of us living in the northeast. Full of wonderful photos, explanations and illustrations. It gives many ideas for addressing certain areas of your yard (i.e. front entryway, patio, rock wall). Explanations are excellent; I learned a great deal from this book. Very well written. Highly recommended.

All in order, no problems.
