## Customer Reviews

“The Puzzle Society is the Web’s premier source for challenging, professionally constructed puzzles and games. Updated daily and boasting a gaming archive of more than 8,000 puzzles, The Puzzle Society offers more than 70 nationally syndicated puzzles, including the Washington Post Crossword, Los Angeles Times Crossword, Universal Crossword, Universal Jigsaw, and Daily Jumble.

I’ve been a huge fan of logic puzzles for many years; I often purchase variety puzzle books & solve the logic problems first. So finding logic-only puzzle books is a total win for me - and for book sellers as I purchase these types of books regularly. ;) This is the second Pocket Posh Logic Book I’ve had the pleasure of working through, and just like the first I tried, this book didn’t let me down. :) The puzzles are fun and addicting to solve, with varying difficulty levels based on the clues provided.

The scenarios are fun & modern too; not like some of the more silly puzzle scenarios out there that may cause an eyeroll before solving. ;) The best part about these books is that they're mobile, but not in the app sense. ;) I prefer solving these types of puzzles the old-fashioned way with paper and pencil, so being able to tuck this book into my purse for doctors' appts or a bookbag for travel makes these my preference for purchasing. Plus, because of the handy elastic band to keep the book closed, you can add a pencil so you're ready to solve without having to hunt down a pen or pencil first. I purchased a couple other Pocket Puzzle varieties that I can't wait to try, but I'm sure I will enjoy them as well. I just had to complete the logic puzzles first as that is my MO. ;) I hope Pocket Posh continues to produce these popular puzzle books - I want to collect them all! :)

Just got my first Pocket Posh logic puzzle book and I must say that I am impressed. I was expecting this book to be cheaply made and something that might not last very long. I was wrong... the book has a semi-hard cover with an intricate design (sealed glitter) and even has an elastic strap to hold it closed. The pages are nicely formatted and easy to read. If you like logic puzzles and want a compact yet fashionably designed book... go with the Posh Logic 4. The only complaint I have is the design... I really wish they made a basic design that was not as flamboyant. But... it is Posh. ;)

I bring this book when I take the bus. I just get bored while waiting, but don't want to use my phone, that's why I bought this book. The cover has glitter on it, which made me worried at first, but they are sturdy and don't rub off so that makes me relieved! Nobody enjoys stray glitters... The content of this book is great! The problems are challenging but very doable! Also, it has the step-by-step answers in the back so if you are stuck, you can try to get a hint from there and finish the rest by yourself.

Beautiful little logic puzzle book. I was expecting a paperback that I could fold all the way open, but this is a cardboard-back. The harder cover makes it more difficult to write in, but it's a quality book. Size and sturdiness make it great for travel. Once I finish all the puzzles, I plan on re-using the front and back cover for scrapbooking or card-making. I gave 4 stars instead of 5 because the cardboard cover makes it harder to write in.

I bought this to stop mindlessly looking through instagram, facebook, etc. on my phone whenever I'm waiting around or bored. It's the perfect size to carry around in my purse and I absolutely love all of the puzzles :) It's well worth the money and keeps me off of my phone and my mind engaged!

A little disappointing because I thought it would contain a variety of logic puzzles but they are all the same type of puzzle. It's great for someone who likes this type of logic puzzles

Love most of the puzzles, could do without the "quizzes" and wish the book was a little larger and spiral bound!

This puzzle book has interesting puzzles that are fun to do. The size of the book is small so it is easy to toss in my purse. The puzzles are challenging, but solvable.
