Among the mega mansions and perfectly manicured hedges of Rosewood, Pennsylvania, everyone has something to hide—especially four very pretty little liars. High school juniors Spencer, Hanna, Aria, and Emily have been keeping secrets ever since their best friend, Alison DiLaurentis, disappeared three years ago. But when the girls begin receiving threatening notes from someone named “A,” their secrets—the big ones, the little ones, even the long-buried ones—no longer seem so safe. Unravel the *Pretty Little Liars*’ wildest mysteries in this special box set. But remember, nothing is as it seems in Rosewood . . . *Pretty Little Liars* Box Set includes books 1 to 4

Sara Shepard is the author of two New York Times bestselling series, *Pretty Little Liars* and *The Lying Game*, as well as the series *The Perfectionists*. She graduated from New York University and has an MFA from Brooklyn College.

Bought this first set for my kids after watching the series with them. They are loving the books and the differences between them and the series. I even picked up the first one because I couldn't find the book I am currently reading and was pulled in. Totally over the top and kind of far fetched for a bunch of kids to get into all these situations, but fun, mindless reading. Just ordered the second set for them.

Fantastic quality, bought as a gift for my girlfriend and she loved them. I purchase many books online and have come to expect slight dents in the corners from shipping; this was not the case. All four books and the box they came in were in pristine condition, very, very satisfied, saved me 20 bucks at least, as I had tried to buy each book separately at local used book stores. I will definitely be buying the rest of the set as she finishes reading them.

I started out by watching the TV show and was thinking that the two would be very similar. And unlike other books and TV shows; I wasn't really disappointed in that aspect. The characters are all there, the plot is pretty much the same, it would be boring if they were identical. The books are still about trying to find the mysterious and allusive A. As far as the packaging I really like the book set idea, especially when dealing with paperback. I hate getting wear and tear on my books and the boxing really helps to shelter the book from that damage and dust too!

Great price for 4 books. Love that they come in a 4 pack as these books are so full of cliffhangers you definitely need to read the next one straight away. Great for fans of the TV show or anyone new to the series. Can be dark at times and a little scary so maybe not suitable for younger readers. Suspenseful and a real teen thriller.

I purchased these books for my thirteen year old niece for Christmas. She had requested them, but as I had also read them in the past I thought that she might like them. These are definitely books for teens, and do have some "adult" themes. Some of the themes that come up are lesbian relationships, alcohol, shoplifting, sex, recreational drugs, murder, and affairs. I would suggest an adult read them before giving them to their child, but I do think that an adult should always know

what their kid is reading. The plot line is interesting.

Another enjoyable book series from . My granddaughter really enjoys these.

Awesome!

I have watched the PLL series on TV and am really excited to read the books. They are perfect quality, no issues
