# Romantic As Hell - Tales Of Woe, Tips Of Woo: An Illustrated Guide For The Romantically Challenged (Comedy, Humor, Short Stories)

## Synopsis

FINALIST - 2016 IAN Book of the Year Awards

From the bestselling author of *Things Go Wrong for Me and Perhaps I've Said Too Much...* In this hilarious, heartfelt and surprisingly useful book, bestselling humor author and comedian Rodney Lacroix opens up about his failed romantic endeavors and - more importantly - how you can avoid the same hysterically bad (and sometimes wince-inducing/dry-heave generating) mistakes. Let's face it. Everyone can use a little help in the dating and love departments. It just so happens that sometimes such help comes in the form of a hysterical book that has a cover showing a teddy bear riddled with arrows and the word "Hell" in the title. Written in Rodney's trademarked comedic style, *Romantic As Hell* gives some great relationship advice like:- Why shouldn't I give a feral cat as a token of my affection?- Why you're not fooling anyone with that "free back massage any time" coupon.- Which "romantic getaways" should you avoid, and which one may result in having your own shoes thrown at you?- Why doesn't my man wear his Pinocchio thong?- How can we keep the spark alive while parenting in a house with four children who are all busy annoying the crap out of us? Each hilarious story is punctuated with amazing illustrations that transform the book into a highly entertaining feast for the eyes, as well. Forming a relationship is hard. Keeping a relationship is harder. But adding romance into that relationship? Well, that can be a real bitch, can't it? Whether you're trying to find a mate, already dating, trying to keep your marriage fresh or just looking for some new ideas, *Romantic As Hell - Tales of Woe, Tips of Woo* by award-winning humor author Rodney Lacroix has got your situation covered and is here to save the day. Rodney Lacroix knows two things: comedy and romance. As "*A Guide for the Romantically Challenged*," he puts them together in a package that is sure to give the audience some unique concepts and perspectives on affection, and a whole lot of side-splitting laughter.

## Customer Reviews

Ridiculously hilarious, and nauseatingly adorable (when needed). Great advice on the perfect and not so perfect ways to show love and thoughtfulness in a relationship....I would suggest Rodney write a book for women on how to keep the man happy, but I'm not sure how many ways he would be able to say "show me your boobs" and "touch my weiner" to make a book worth buying...Anyway...if you want great advice on bettering the relationship, seriously read this book. If you want to laugh hysterically at the expense of someone else, read this book. If you are suffering backlash from the Ashley Madison scandal and you REALLY need to make it up to the wife, girlfriend...whatever....read this book. If you're Channing Tatum, you don't have to read this book. You're perfect, just the way you are. Call me?

I've read Rodney's previous books, and I must say, this is the best one yet!! I actually had to put it down a couple of times because I was laughing so hard..the "Christie Brinkley" incident alone is worth buying the book!! There are a lot more like that too, so if you have bladder issues I suggest you bust out the Depends. Surprisingly, the tips he gives are very sweet and really thoughtful! We should all be as lucky to have someone love us as much as he obviously loves his wife. I look forward to reading his future books since he is definitely maturing as a writer, even if he isn't as a human being. That's part of his charm though, so I highly recommend buying any or all of his books. Mostly because his wife deserves a really expensive piece of jewelry for putting up with his shenanigans, and the kids are definitely going to need some therapy.

I loved this book, and not just because he included my story in a "fans speak" chapter. His humor keeps it from being a lame new-age self-help book, so you don't need to be embarrassed if you're

caught reading it. Seriously though, there were a lot of good tips in this book that made me realize what an jerk I've been to my husband (I really need to put more effort into gift shopping), so I'm sure there's something in here to help everyone. If you like getting some, and want to get more, read this book.

After reading the 1st 2 books, it's safe to say Rodney has an inimitable way of going right for the heart of a situation. This book not only made for an entertaining read, full of laughs and comments such as, "You Ass.", and a LOT of mental visualizations that could leave you scarred for years to come, but if you're seriously pondering any of these ideas, you'd be on the right track, although you'd ALSO be plagiarizing the man. A First Class Read and definitely worthy of your time and laughter.

Sometimes little gifts happen just at the right time. I stumbled upon this book through a friend of a friend and needed something to read on a couple of flights. I found myself literally laughing out loud at the real-life antics of Rodney Lacroix. Having grown up around mostly boys, I have probably witnessed more of his personal tragedies than any of those guys would like to admit. This is definitely a light read -with a little bit of education on how to treat a woman thrown in. I'm not sure how men would react to some of the do/don't suggestions - but I did make a mental list of all of the people I need to anonymously send a copy to!!! Can't wait to read Rodney's other to books!!

What fun! This is a laugh-out-loud treasure! The different ways of being romantic and how not-to screw it up will have you on the floor! There are so tidbits of things that both men and women need to know about the other gender that are addressed and explained in epic fails.

As with the other books Rodney has written, this one does not disappoint. So many good pointers of what to do and what not to do. It was so funny & intriguing I read it from cover to cover in a day.

I've read Rodney's other books and of course, any person who has been married for many years appreciates romantic advice. Rodney's take on things is hilarious, and yet, useful! Must admit I was surprised at how useful the warped view of 'dating with kids' was to me. Since I'm still married, I'm not dating (THANK GOD!) but readers could also read Rodney's book with the idea in mind that 'perhaps my marriage isn't so bad, if dating is that weird.' But seriously, you'll laugh. Just buy it.
