A Mad Man in the best sense. This book wasn't as captivating as the the first 3 Dune books, and God Emperor did drag on for a bit as did this book. But once you get to know the new characters and, of course the Duncan Idaho Dejour - the plot drew me in. I loved the Teg character and the witches take on a new life of their own as developing characters. The Dune Audio books have the best readers I've ever heard - the readers are distributed throughout the reading just enough to provide a refreshing change of voice now and then. For the die-hard Dune lovers that are debating whether or not to go on after God Emperor I'd say it's worth it. For those that thought they'd had enough after dredging through God Emperor - you may or may not want to end it there or read/listen to it again before moving on to this one.

This is a great series, but it is not the most important part of the series. If you wish to follow the minute of the story then get this one.

Book one is the best by far...but invested in all books in the series.

Excellent reading .

I have read the Dune books many times. I always seem to go back to them. It is nice to listen in the car on trips.

Not as good as the God Emperor but interested enough to finish the chronicles of Dune. I am about 1/2 way through. After listening to the whole series and giving it a little more time I just wanted to add to this review. This is the best science fiction series out there. I enjoyed it even more the second time.
