Her advice on choosing easy-care, disease-resistant roses is spot on. Combine that with her sage advice for planting and caring for them and you are sure to have great roses!”—Pat Shanley, president, American Rose Society

“What

an incredible resource for regional gardeners. This beautifully written concise and practical guide to growing roses in our rose-challenged climate makes the case for why we should include roses in our gardens while taking all the work out of making the right decisions.

•Daniel J. Hinkley, author and horticulturalist, creator of Heronswood and Windcliff Plants
"Oh, la, la! Anyone lucky enough to see the roses in Nita-Jo Rountree's magnificent garden won't be surprised that this is such an excellent book. There's flat-out no one in the Pacific Northwest better qualified to write about choosing the best roses for your garden, and how to care for them to keep them looking their best. If you love roses half as much as I do, you'll love the living tweetle out of this book, and if you don't love roses, I guarantee you will after you read it."

•Seattle Times "This is a great book!" •New Day Northwest "A warm voice brimming with enthusiasm. [This book] should be required reading for nursery professionals."

•Horticulture Magazine "Nita-Jo abides by a no-spray approach and heartily recommends promoting healthy plants and selecting roses that have proven successful in the region. A mighty little book."

•Pacific Horticulture "So lovely to look at, [and] reading about the promise of a bountiful garden just makes the world feel right."

•The Columbian "In her recently published book, *Growing Roses in the Pacific Northwest*, Rountree offers tips for growing [roses] in the Northwest."
