IT GROWS ON YOU contains audio versions of four Stephen King stories. The readings are pretty solid all around. The stories vary somewhat in quality. First up is the title story. "It Grows On You" is vintage King, set in Maine and mostly involving a bunch of old guys with thick accents sitting around and remembering past events involving an unusual haunted house. It would seem the house literally has a life of its own, and its owners keep adding strange and unneeded expansions to the property (and going insane). For me, the story was more atmosphere than content. There is little payoff to it, and the ending is needlessly squalid. (SPOILER: do we NEED to finish up with hearing about an old man having a wet dream and then dying in his sleep?) King is the narrator here, and he does his usual serviceable job of reading his own work. He isn't the greatest reader in history, but he certainly gets the pacing and inflections that he intended. Occasionally, the dialogue rings a little false...I always wonder if when King reads his work out loud for these audiobooks if he wishes he could go back and tweak a little. 2nd is "The Fifth Quarter," a non-horror story. It's written in the "hard-boiled" style of someone like John D. MacDonald, and tells a story of revenge and reminds us that there's "no honor among thieves." It is very well read by Gary Sines, and moves briskly. It's not a great story, particularly if you're looking for King-style horror...but it's vivid & evocative of the era King is clearly trying to harken to. Over the years, King has proven a master of fashioning stories in other styles: *EYE OF THE DRAGON* ready like C.S. Lewis without religion, "The Breathing Method" like Conan Doyle, etc. Next up is "You Know They Got A Hell of a Band," perhaps the best written of the bunch. It tells the story of a young couple making a trip through Oregon by car. They take the "scenic route" and after much arguing and misadventure, stumble across a little town in the middle of nowhere that may just be too good to be true. King's dialogue and relationship between the two is sharp and believable...he's often so good at quickly sketching convincing marriages and putting them in peril. He did similarly solid work with "Children of the Corn." (Forget the movies...the short story puts them all to deep, deep shame.) This story is, surprisingly, read by Grace Slick. I have no idea who thought of having her do this...but it was a GREAT idea. Her manner is a bit

unpolished, but she is a clear, intelligent interpreter...and it's nice to hear a King story in a female voice. I'd gladly hear her again. The final story is read by the legendary Frank Muller...probably the greatest interpreter of King. He's very "unflashy" in his style...but he simply reads the stories with perfect pitch, pace and emphasis. He gets out of the way of the story, and almost seems like the voice you would hear in your own head when reading a book in bed at night. "The Night Flier" is a vampire story, about a journalist who believes he's discovered a killer who flies his own plane from airport to airport at night and is snacking on the workers there. It reads a bit hard-boiled as well, and also something like a procedural. But it has moments of pure horror, and the ending is classic gory King. Overall, while I wish the collection had two stronger stories to lead off, this is very solidly done stuff, and makes a wonderful listen while driving. If you're a King fan, you should be well pleased.

This is mostly a retelling of some of his short stories. If you have read his other short stories, don't buy this because it is just a compilation from those books. The story "It Grows on You" is completely pointless and left me confused. I was waiting for something interesting to happen. It seemed like just a very sad story with no real plot and absolutely no ending. We got to the end of the story and it started on the next one and my boyfriend turned to me and said "Was that it!? Was that the whole story?" Dumbest story I've heard from Stephen King, I really don't know why it got published. Sorry, Stephen, this was a complete miss for me and I have always been a huge fan.

This was a Christmas present for my father in law, who do to an accident several years ago can not read like he used to, so this was a great thing for him. He really loves it. I don't know anything about the book though, as I don't usually read this genre

Frankly I rather enjoy the weighty tomes of King's longer novels, but these short stories give one a taste of the variety of ideas that pass through the master's head. I had planned to write a novel myself one day, but I'm coming to believe that Steve has eaten up all the ideas. If you listen to this on audio as I did, you'll get to hear the voices of Gary Sinise, Stephen King himself, and the amazing and pitch-perfect voice of Frank Muller (who will always be the voice of the Dark Tower series for me).

"It Grows on You" Was a read by Sk and well developed and as Maine as Maine can be, Well Done!
"The Fifth Quarter: read by Gary Sinise was Great and I would Love to see more read by GS! Grace Slick was surprising as a reader and perfect for "You Know You They Got a Hell of a Band" ROCK

ON! And of coarse Frank Muller (a Master) read "The Night Flier" prefectly and the story left you feeling that the world was as Dark as a Wood Chucks #&\$*#@ is Black! So to this "Constant Reader" It lived up to or maybe better said, "It was as good as the Undead gets"!

Who doesn't like Stephen King? Even better, books that are read to you. Great way to pass time on long trips. This is the best author out there!

I love Stephen King anyway I can get him

This like all of Stephen King writtings is wonderful. Just the right mix of scary and takes your breath away. I really enjoyed it. Just right to listen to one story per night before bed. Made we want more short stories of his.
