# Ghosts Of War (A Pike Logan Thriller)

## Synopsis

World war is on the horizon in *The Taskforce*, a New York Times bestselling author Brad Taylor's tenth heart-pounding Pike Logan thriller. The Taskforce has stopped countless terrorist threats across the globe, operating outside of US law to prevent the death of innocents. But now, along the fault lines of the old Iron Curtain, the danger is far greater than a single attack. With Russia expanding its influence from Syria to the Baltic States, the Taskforce is placed on stand-down because of the actions of one rogue operator. Meanwhile, Pike Logan and Jennifer Cahill travel to Poland, hired to verify artifacts hidden for decades in a fabled Nazi gold train, only to find themselves caught amid growing tensions between East and West. A Russian incursion into Belarus under the facade of self-defense is trumped by a horrific attack against the United States, driving NATO to mobilize even as it tries to determine who is behind the strike. On the brink of war, Pike and Jennifer discover that there is a separate agenda in play, one determined to force a showdown between NATO and Russia. With time running out, and America demanding vengeance, Pike and Jennifer race to unravel the mystery before a point of no return is reached. Unbeknownst to them, there is another attack on the way. One that will guarantee World War III.

## Customer Reviews

This is probably the best Pike Logan novel to date. While it stands alone easily, knowing the character development from the earlier books is a huge plus. This novel brings back the Israelis who receive more attention and hence more depth. There were fewer 'Q' type gizmos since Pike and Jennifer start without sponsorship of the TF but the ones brought in by Shoshana and Arian are not only interesting but add to the overall suspense that builds as the US and Russia march toward total war. Brad Taylor brings in the view point of a young soldier in the 75th Ranger Regiment who finds himself in his first firefight not in Afghanistan but in the Ukraine. This is one of my favorites of the Pike Logan series.

Brad Taylor is my new author, until the next Jack Reacher comes out. Although the Taskforce is on stand down, possibly forever, Pike and Jennifer still have to make a living with their new front (er real) company that hires out to provide security for "archeological digs." Old friends, Shoshana and Aaron, formerly Mossad, approach them to help recover a priceless Torah that had been stolen by the Nazis, and the chance to recover gold from the fabled Nazi gold trains. During the process, a much more formidable plot comes to light and they find themselves uncovering a WWII plot involving Putin and the rest of the world. There is a lot of driving to get places before harm comes to the mission members, and a lot of street names that are absolutely unpronounceable and that made it difficult for me (I couldn't read Tolstoy for that reason). A group of antagonists brings war to the front steps of the White House and finds everyone preparing for the worst by bringing down Air Force One, possibly by accident. Putin is denying all involvement because his oligarchy pals want more real estate, until even they have no stomach for a nuclear war.

Good read, a little predictable but still a great page turner. Pike Logan kicking butt and taking names yet again

Not only is Brad Taylor hot, he must have a great sense of humor. All of his books move at the speed of sound in terms of excitement. There are very serious implications if Taskforce isn't able to thwart the evildoers, but mr Taylor does an excellent job of inserting comic relief. I find myself having to stop reading from laughing out loud. And that's pretty much the only time I can stop reading one of his books. I can't get enough! Keep them coming!

Great novel. Like the plot, especially the Israeli's. Shoshona sounds like a handful and Aaron is kind of not. Like the suspense, the unknowns and the unfolding of the entire story. Awesome

I never knew where the story was going yet was always excited about the destination when it arrived. I enjoyed the relationship stuff I enjoyed them pulling people in and out and the part about Air Force One was brilliant. I truly couldn't put it down and can't wait for the next installment.

I've read everything he's published, and he never lets me down. This one is really good. Add the tension between Pike and Jennifer to the tension between Aaron and Shoshanna, throw in a Russian biker gang and two Israeli Russian mobsters, and then have them all cooking up and trying to prevent WWII, and you have another damn good read. Bravo, Brad! Keep 'em coming.

I don't know how he continues to do it but Brad Taylor continues to write exciting stories after exciting stories. This one had the Russians on the border, Ukrainian's getting squeezed, NATO on edge, and the United States government breathing fire after a tragic airplane crash. Pike and Jennifer were on the trail of Nazi stolen Tora with the help of Shoshana and Aaron only to fall into this even more critical mission... stopping WWII from starting. Yes it's another pager turner from the thriller master Brad Taylor.
