The Singing: The Fourth Book Of Pellinor

Synopsis

In an increasingly battle-ravaged land, Maerad, Cadvan, and Hem desperately search for one another as they make their separate journeys. The Black Army is advancing north, and even as Maerad faces a mighty confrontation with the Landrost to save Innail, all of the Seven Kingdoms are threatened with bitter and devastating defeat. Yet in Maerad and Hem lives the secret to the mysterious Singing, and legend holds that if they release the music of Elidhu together, they have the power to defeat the Nameless One. Can brother and sister find each other in time to fight this all-powerful enemy, and are they strong enough - even reunited - to defeat him before all is lost? The climactic volume of the epic quartet follows the Bards of Edil-Amarandh on a vital quest to merge their powers against a nameless evil.

Customer Reviews

This book, I can easily say this series, is one of my lifetime favorites. Ms Croggon is an excellent story teller, the kind that carries one deep into the tale. In many ways it felt like a spiritual odyssey of the world which I found myself pondering on through my work day. I've purchased both kindle and paperback versions which seldom happens, but now can be borrowed by family members and friends. I highly recommend this entire series.

I have read every book in the series, and I must say that it deserves awards of the highest honor.

Even the awards given could not truly represent this books... Fitness? No... Touch. Yes, touch; thorough out the whole book, the whole series in fact, I felt a connection to each of the characters, and I gained a perilously deep understanding of how each individual felt. It brought me as close to the characters as I could possibly get, through the leaves if script bound into my book. I must say. This book has brought my reading to a completely different, satisfactory level that I struggled to find in many popular books like The Hunger Games and Divergent. I have recommended this book to all of my friends at school, claiming it is the book to rival their favorites, the book to literally knock their socks off. I'm not being comical, I'm dead serious. Anyone who fails to read this book is missing out on a world of wonder and a world of great... Great adventures. Alison Croggon, I thank you for bringing me the book of my life, and I will always hold a special place for your book in my heart. The truth is, at the end of your book I wept, because I would not get to see Hem grow into a man, or Cadvan adventure on with Madred and watch their quiet love blossom into something more. I know it is a tall order, but perhaps you could expand on their journeys a little but more, I would like to see Cadvans birthplace in your words and Afinil described even more so than it was, an perhaps you could write a book solely on the Elementals adventures, purposes, and conflict. Your Not-So-Crazed 7th Grade Fan, Sadie HollingsworthP.S. This review is for both the reader and the authors viewing, in any case that the author does happen to read this, she should know that I admire her work and I would like to find a way to bring fiction into my block classroom. The Singing is an amazing conclusion to the Books of Pellinor. It started with the first book and through til the end started my love affair with this series. The whole book shows so many things that are true in our world as well as Maerad's. Croggon shows the horror of war, power of friendship and love, and the slow movement of recovery. The detail continues in this book letting you see and feel the whole story. I really liked how she keeps Irc throughout the fourth book because he lightens the fear and makes the story happier. I also like how there are a so many well known characters (like Irc), but Croggon still adds so many new people and personalities. Each character is well described by appearance and by the other characters' opinion if him or her. This book was one of the most satisfying, gorgeous conclusions to a series that I have ever read. The climax of the book was heartrending and breathtaking. Great ending, will miss reading about thier exploits and thier world. GREAT GREAT READ YOU WILL NOT BE DISAPPOINTED!

An amazing series of books. I'd recommend it to those who like the genre. An intriguing story told

over four books, during which you get to know the characters and the world through which they travel. Well written and a generous backstory to all protagonists really makes you feel a part of the story as you learn the depth of the characters. The quite abstract and insightful take on dark and light, evil and good, really deepens the meaning and morality of the story, and really allowing a deeper commitment to this wonderful literary universe.

Alison Croggon finished strong in here final book of the Pellinor saga. A most captivating read.. could not put it down.. The whole series rivals Lord of the Rinds and Harry Potter with its own unique depth. Bringing to life a world of immense detail and beauty and magic intertwined with a sense of realistic historical truth. The final book is as action packed as the first three if not more so, twisted, heart warming a true fantasy novel.

This is the final book of the 4 book series. Truth, virtue and love win out over evil.I loved it. . I couldn't put down' any of the books and read late into the night.Sorry honey. I highly recommend it!!!! did need the first book in hard copy to look at map and word pronunciations.They weren't in the e-book.

When I finished this book I wanted so badly for it not to end! The characters became a part of my heart. I wanted to know more about what happened to them. I was glad there was an ending after the ending. I wanted so badly to know more that I researched Alison Croggon on Google hoping to find out more. I did discover that she is writing a prequel about Cadvan. This series of books are not just for young adults! I am 58. I considered this series to be one of my favorites of all time! Her creative style of writing had me reading every word. I usually skim a lot when I read. I had a craving for this book series. I haven't come across many books in my lifetime that have moved me as much as these books did!

Good read.
