Art Of The Harley-Davidson(R) Motorcycle - Deluxe Edition

Synopsis

See David Blattel's stunning Harley-Davidson portraiture as never before in this deluxe edition. Photographer David Blattel treats every photo shoot as a work of art. When his subjects are the works of art produced by the motorcycling maestros from Milwaukee, the results are doubly beautiful. Art of the Harley-Davidson Motorcycle pulls together the best of Blattel's Harley-Davidson portraiture--over 100 stunning machines--resulting in a breathtaking review of Harley-Davidson's greatest hits from the early 1900s to today. Harley-Davidson expert Dain Gingerelli puts each machine in historical and technical context with informed profiles. The result is a handsome, informative overview of Harley-Davidson's 100-plus years of style and innovation. This deluxe edition sports a special leather-look cover, poster-sized gatefolds, and frameable garage art in an internal envelope.

Museum Masterpieces. David Blattel is a commercial photographer whose clients include Disney, Fox Broadcasting, Microsoft and more. He lives and works in Topanga, California.

This was a Christmas gift for my stepdad and he absolutely loved it. He has a Harley rider and always enjoys getting history about Harley Davidson motorcycles and any information about the new ones coming out. I got him a calendar last year and this was a perfect addition to his Harley memorabilia collection that he has. I would highly recommend this for any Harley rider or anyone that is interested in the history of motorcycles.

Got this as a Christmas gift for a friend who has a new Harley. When it arrived I found that the book pages had completely separated from the binding. Only two pages, the first and last were still attached to the hard cover. Very disappointed. I sent it back to , before glancing at a couple of pages. It looks like they might have had some really good pictures, too bad the book binding itself was of such low quality.

I purchased Art of the Harley-Davidson Motorcycle for my father for his birthday. I just received it and it looks beautiful! The pictures are so crisp and clear it is definitely art! I was telling my friend that the book itself looks kind of like a year book. Same kind of binding and material in the cover, then I realized, it basically is a year book for Harleys! Every page has a beautiful photograph with a paragraph or so about the bike, year it was made, so on and so forth. I don't know much about Harleys so I can't say much about the actual content but in general it is beautiful and I think any Harley-Davidson enthusiast would love it!

I bought this as a Christmas gift for a Harley guy who's tough to buy for. He LOVED it. You can tell when a man likes a gift. They're no good at faking their reactions to gifts (the way women are!) The cover was fabric and had an embossed feel, which really impressed him. He's not even a "coffee table book" kinda guy, but he was saying he's excited to have it out on display. From the photos I saw, it looks like a very well-made and comprehensive book on Harleys. I think this would make a great gift for any Harley person, man or woman. Highly recommend.

This was a gift for a friend who is a Harley enthusiast and has owned and ridden several models. As a non motorcycle-enthusiast, I appreciated the photography and elegant design, but there was also plenty of interesting commentary to be a treasure trove for my friend.

Bought this for a friend as a birthday gift. He loves it and it's a nice size, kind of like a "coffee table" book. The price was right and it was packaged well and shrink wrapped.

This picture and short-story book is filled with great photos of Harley bikes, older and current models. It's great reading for everyone interested in the "art of the motorcycle", not only Harley owners looking at Harley bikes. You get a historical perspective on the older bikes that is very interesting. The photos are really crisp and pleasing to the eye. Highly recommended for your own book collection or as a gift for a friend who appreciates transportation art. Even Car Guys will like the book. 5 stars.

good gift idea. The photos are beautiful and as far as I could tell, the narrative is very informative. I gave it to a nephew-in-law for Christmas and both he and his kids loved it.
