"Helpful for all your studies and research projects"

A handy reference volume to have on hand on those trips when you are following the course of historical or geographic events. Most historical episodes chronicled by Native Americans, pioneers, cavalry, or prospectors give geographical references as to where rivers were forded, what mountains were crossed which creek lead to the pass across the divide, etc. Read these stories, histories with the Gazetteer open on your lap. Enjoy!

Overall, this wasnt quite what I was hoping for. It was less than extremely informative, though some parts I found helpful. My advice: look somewhere else.
