Patrick Burke has been a paranormal investigator for 40 years. He has written and been featured in countless articles and interviews in print publications and on broadcasts, including in *The Washington Post*, *Ghost Magazine*, *Southern Maryland: This Is Living*, *Speaking of Strange*, and *The Micheal Medved Show*. His extensive historical knowledge and expertise have led him to be invited as a guest speaker at numerous paranormal workshops and conventions, including *BOOt Camp*, *Horror Find*, *West Virginia Ghost Expose*, *Washington College*, and the *George Mason*

University Book Fair. Additionally, he has been featured as a guest expert on several television shows including America's Book of Secrets: Monuments on H2, and Haunted House for Sale on DIY. Patrick's first book, A Guide to Battlefield Ghost Hunting, is considered a definitive hands-on manual. ~ One of Jack Roth's first investigative forays occurred in New Orleans, La., in 1997, when he wrote and co-produced a TV demo titled Hauntings: A Journey Into the Unknown. From 2001 to 2007 ~ in an effort to document witness testimony ~ Jack coordinated and led hands-on weekend excursions during which he took guests to various haunted destinations across the United States. Jack appeared as a principle investigator in Ghost Detectives, a one-hour TV special produced in 2001 that continues to air on the Discovery Channel. In 2007, he was interviewed for the Gettysburg-based documentary titled The Other Side: Giving Up the Ghost. Most recently, he has participated as an on-camera paranormal investigator in several TV demos for the Emmy Award-winning production company Lightworks-KPI Productions. The company's latest effort, Haunted House for Sale, was greenlighted and aired on the DIY Network.~

From this book's title I expected mostly eyewitness accounts of "ghost soldiers" & paranormal Gettysburg happenings, so I was dismayed to find the book heavily weighted towards the history of the different battle locations. Very few ghost tales, EVP results, etc. Sparse on the paranormal, heavy on history.

Great book and just recently published this year. Very interesting and intriguing, with many stories and things to know. I am totally enchanted with Gettysburg, having gone there when I was a small child on a charter bus my Dad was driving. I would recommend this book, as it describes many sites that I will now visit that I hadn't before. Of course with a battlefield this large you are going to miss things, but with hints of paranormal activity as described only makes it that much more appealing to go back and check it out. Good subject matter, low price, and quick delivery by this vendor. Thank you.

This book was very disappointing. It's a hodge podge of experiences and ghost hunting instructions, neither of which are very well described. The authors "switch off" writing chapters, and then there are some chapters with no author listed, so it's uneven and patchy. I was especially surprised that the authors were able to make this subject sound about as dull as humanly possible. Instead of this book I suggest you get Civil War Ghost Stories and Legends, by Nancy Roberts and Ghosts and

Haunts of the Civil War: Authentic Accounts of the Strange and Unexplained, by Christopher K. Coleman. Both are available on , and between them they contain more material, and cover some of the same stories (but do it better) than the Burke and Roth book.

I'm not really into ghost stories but bought this book because, being from Virginia, I've always been interested in the Civil War. When I started reading, I quickly realized that this was different than any other book I've read on haunted historic places. The authors do a great job of combining historic details of the battle with first-hand accounts of the ghost stories associated with them. I especially loved the interviews and references to experts in the areas of quantum physics, parapsychology and paranormal research. I highly recommend this book to anyone who is interested in history, historic places, the Civil War, ghost stories and who might be looking for a well written non-fiction book to read.

I enjoy Civil War history but can't remember all the sites of battle and that can put me off of a lot of books . This book isn't quite like that since it's basically Gettysburg only but the paranormal activity that it speaks of kept my interest. After not reading much history in years this was a pleasant surprise. Very much enjoyed it !

Just as they described. Would buy from in future

I felt like the investigators were very truthful and treated other researchers and the ghosts with respect and kindness. The scientific information really tied the book together.

Wonderful book.If you're into ghost hunting,this book is like ghost hunting 101.The methods described within I will probably try next time I go to Gettysburg.
