Leukemia, The Cure For (There Is A Cure Book 1)

Synopsis

Leukemia does not have to become a chronic illness or a death sentence. Leukemia, There Is A Cure, provides you with the information necessary to get the proven treatment that has either cured tens of thousands since 1988, or sent them into remission for years. This treatment is not about fetal abortion or embryonic stem cells. The stem cells in this treatment are obtained or drawn from the umbilical cord from a healthy new born baby. Neither the baby nor the mother experience discomfort from drawing the stem cells from the cord. Chemotherapy, and radiation are failing as cancer treatments. The high death tolls are proof of that. Millions died not knowing that a cure for Leukemia was available. This Ebook provides 7-8 videos of individuals of varying ages who were cured of Leukemia via the use of umbilical cord blood stem cells. Now, it is your turn to get healed or go into remission for years. This Ebook gives a list of facilities that offer this treatment, and this Ebook also features the 5 year old, who is now 32 years of age, who received this treatment in 1988, and he remains cancer free 27 years later. Now it is your turn to receive this miracle treatment that only takes 30 minutes to infuse through the veins after you have had your chemo, and or radiation treatment. There Is A Cure For Leukemia, and it is available, and effective, and thousands who have been cured or sent into remission can attest to this. View the videos, be encouraged, contact your insurance company, get your treatment, and receive your blessing.
