## Customer Reviews

I've been a dancer for 10 years and I am looking for ways to help newer girls make more money. This book is a very basic how-to. I would have like more detail into club politics. A chapter on working in Vegas. More information on choosing your clientele and more instruction on dealing with other dancers. Also, it's important to teach new dancers about saving money and avoiding drugs, pimps and other dangers in a strip club.

Gives you some great tips for first timers and how to handle some of the politics of the game of stripping.

I have never been to a strip club so this was all new to me. I have seen strippers in night club shows. Suggestions in the book seem to me to be close to prostitution, when it is suggested that strippers dance with clients, learn their names and then suggest that they go into the VIP room for more privacy. They are apparently paid to dance with individual customers/clients. I was under the impression that the strippers never left the stage to meet and mingle with the audience. It was interesting to learn that the strippers should cultivate an innocent/youthful persona by wearing pink thongs. A "girl next door" look while also wearing heavy eye makeup. They can make a lot of money by stripping and I wish I had known this when I was in college and chronically short of funds. I would not have liked the VIP room, however.

All the sale strategies given in this book are very deceiving and lead to miss understandings. Most customers want to test how far they can push and it will get the dancers that only dance in very uncomfortable positions and make the customers upset since they pay for something they won't receive. The book is ok but it is truly just a little advice. I really don't agree with the beginners advices they give. Try to find a good club by talking to the lady in the front ask her for good clubs to start at. Try to find a dancer that smiles at you and ask. Finding a good club to start out of is the best blessing. If you look at a club and you have a weird feeling about it, chances are you are right. It will be hard to work at a club as only a dancer if not everyone is only dancing. It will be ok for a month or two but after that it will much harder to sell dances. I've danced only for a little while but i've been

blessed to be at a great drama free club where people get along. You don't have to put up with bullying and this is not highschool. Act professional, be nice, respectful and i guarantee that even the bitchiest person will become your "friend". Don't do anything to your coworkers that you wouldn't want anyone to do to you. It's ok to say i'm new. It's ok to ask questions. Not to everyone and not all the time but just follow your gut instincts and you'll be ok. Don't give away your private life but tell enough about yourself that people have a idea of who you are. You're not there to make friends and hang out but if it's empty and everyone has talked to customers, there's nothing wrong with a polite conversation with your coworkers. Don't be stuck up, don't act like you're better than anyone but don't forget that you're just as good as everyone. And believe it or not, looks don't matter that much. It helps but it's not what makes you money. Sales strategies and learning how to hold a good conversation and sell fast is what will make you successful. That's what i was hoping to find help with in this book...

Very quickly gives you all the needed information without extra fluff. I love that it gets to the point. As she said, time is money.

Very nice, quick read. Steps are common sense but from experienced dancers, which is nice. I look forward to reading more about dancing tactics.

I'm brand new to dancing and this book was great! A quick read, but much more in depth and substantive than other books I've purchased on the topic. Would happily buy more from these authors.

If you've done your research then this book will just be reiterating all you've read before. Great tips nonetheless and a very "real" approach.
