I have to admit that sex with my husband became boring. I know that there is love between us, but we both have a lot of obligations, and together we take care of our children. We are often tired, and sex has become routine. I picked up this book because I want to revive our sex life. I read both of these books, and I realized where we made a mistake and how to correct it. Certainly, sex is a very important part between two people, and this set of books is very useful for all couples.

Didn't think it was that revolutionary, however it had solid information written from a guys point of view written to the guy in the relationship reading it. I as a woman however found some good basics to review and try and good refresher on what the guy is going through.

I think I had the best night of my life thanks to this book. I'm on the road the become the stallion that I've always wanted to be. My relationship with my wife is now more and more spicy and I love that; thank you Evan Rockwell
