Community Psychology: Linking Individuals And Communities

Synopsis

Learn through application with COMMUNITY PSYCHOLOGY! Featuring concrete examples and numerous study tools, this psychology text helps you understand the concepts and then provides opportunities for you to apply them. Brief outlines of chapter content, anticipatory questions, key points, brief exercises, summaries, and self tests are just a few of the tools that will help you succeed in this course. Programs and citizen initiatives for enriching the quality of individual and community life--such as Alcoholics Anonymous and the San Francisco Depression Prevention Project--show you what community psychology means in the real world. At the end of each chapter, you will find website references to model or recommended projects that connect you to community resources.

Bret Kloos is an Associate Professor at the University of South Carolina and has been the Guest Editor of three issues of community psychology journals. His areas of interest include the social and cultural dimensions of health, social ecology, mutual support/self-help, and stress and coping. Jean Hill is a Professor at New Mexico Highlands University and Secretary of the Society for Community Research and Action. Her areas of interest include feminist theory and community psychology, community-level interventions, and psychological sense of community. Elizabeth Thomas is an Associate Professor at University of Washington Bothell and Editor Emerita of The Community Psychologist. Her areas of interest include interdisciplinary curriculum and pedagogy, community-based learning and scholarship, and participatory research methods. Abraham Wandersman earned his Ph.D. from Cornell University in 1976 and is currently a Professor at the University of South Carolina. Dr. Wandersman's areas of interest include community psychology, program evaluation, environmental and ecological psychology, citizen participation, community coalitions, and program evaluation. Maurice J. Elias earned his Ph.D. in Clinical Psychology from the University of Connecticut. Dr. Elias is a Professor for the Department of Psychology at Rutgers University, and co-developer of the Social Decision Making/Social Problem Solving Project. Areas of research interest include clinical, school, and community psychology particularly in the area of children, adolescents, and families; design and evaluation of preventive interventions; social, cognitive, and behavioral competence; and emotional intelligence.

Good book. did a great job. The book, however, It outlines the processes by which society and subgroups evolve and the discrepancies each system faces. From the individual all the way to the macro system, the book address several factors contributing to change. Overall a good book.

This book is extremely dry and way too expensive for what it is worth (textbooks these days *eyeroll*) but I am just happy that I could find it for a cheaper price here at .

required text for courses, but very informative

I cannot access this book on my account.

Good reading!

Easy return. Book came used, but it was in pretty good condition. Had some writing in it, but still very useable, and the price was great for renting this book.

this book was very helpful. i like how easy it was to understand the meaning of some of the theories and how beneficial community psych is

very fast shipping very impressed with the quickness of it all.
