Tom Clancy's Op-Center Sea Of Fire

Synopsis

A half-dead Singapore pirate is plucked from the Celebes Sea in the Western Pacific, setting off alarms halfway around the world in Washington, D.C. Traces of radiation are found on the man, causing Australian officials to call in Op-Center for a top-secret investigation of nuclear disposal sights. When an empty drum from a recent drop-off is discovered near where the pirate's ship was destroyed, the Op-Center team comes to a terrifying conclusion: a multi-national corporation that has been hired to dispose of nuclear waste is selling it instead -- to a most unlikely terrorist... A powerful profile of America's defense, intelligence, and crisis management technology, Tom Clancy's Op-Center is the creation of Tom Clancy and Steve Pieczenik -- inspiring this and other gripping novels. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

A little more than thirty years ago Tom Clancy was a Maryland insurance broker with a passion for naval history. Years before, he had been an English major at Baltimore's Loyola College and had always dreamed of writing a novel. His first effort, *The Hunt for Red October*, sold briskly as a result of rave reviews, then catapulted onto the New York Times bestseller list after President Reagan pronounced it "the perfect yarn." From that day forward, Clancy established himself as an undisputed master at blending exceptional realism and authenticity, intricate plotting, and razor-sharp suspense. He passed away in October 2013. --This text refers to an out of print or unavailable edition of this title.

Love all of the "Tom Clancy" books. This may not be up there with my favorites but it's still a very good read. I recommend - just don't anticipate a "Rainbow Six" experience!

This book is as good or better than his last book in the series. I used to hate reading but thanks to Tom Chancy and his supporting team I have read about 20 of his novels in the past year. Very interesting reading that keeps you wanting to read more. I would refer anyone to read Tom's books they are awesome.

Still written in Clancy's style. Great reading.

Lack of real suspense and a bit meandering. Disappointing for a Tom Clancy Novel. The ending is also rather anti - climatic and just really peeters out.

Bought this book to read while I was on a recent business trip. Finished it on my first flight. I really enjoyed reading this one.

You take the ride with the op center team! I did not foresee the ending on this one! I agree with Paul Hood- this one opened up many possible additions to the team on future missions!

This is a very slow book where you hate to turn the page to read the same mind numbing thoughts. It just meanders from one slow page to other with nothing there. Don't buy and read it if you value your money and time. Not even worth free

Starts a little slow - but some characters needed development. New character entered that should be recurring in the series. After I got about a third of the way into to book, it was hard to put down.
