**About Thaneeya** I was born in the summer of 1979, and six weeks later experienced my first intercontinental plane ride. I’ve been hooked on travel ever since. I learned to walk in Saudi Arabia, stayed with a tribal village family in India, visited a civil war refugee camp in Sri Lanka, had my palm read in Nepal, floated on a bamboo raft down a Thai river, picked wild berries in rural Wales, co-founded a Buddhist-inspired eco-retreat center in the south of France, and got married under a basswood tree in Australia. And that’s just part of it! The world offers us an amazing variety of experiences - cultures to explore, places to see, differences to appreciate. Art is my way of assimilating and interpreting the world around me. Through art, I process my external experiences, reflect on my inner experiences and merge the two together in a visual union that I share with the world. I truly hope that through my art you will be inspired to create your own art, and/or be encouraged you to share your unique vision with the world in some other creative way!

Great designs, love the messages. The paper is not too thin but not thick enough for some markers. Great for colored pencils & gel pens. Sharpie pens are good to, Bic flare markers can bleed through and sharpie extra fine definitely do.

Really cute coloring book. Lovely designs and wording. I love that there are no designs on each page because i hate choosing what design I like better in case I'm coloring with markers.... I also like that there are "how to" pages ..which makes it a lovely gift for beginners also

I love this coloring book. It seems to have something for everyone. Some pages are really quick and some take some time and thought. Highly recommended!

Excellent coloring book!!!

Thaneeya is one of my favorite coloring book artists. Her drawings are fun, cheerful, and have just the right amount of detail to keep me happily occupied (and de-stressing) but not overwhelmed by the huge amount of tiny spaces to color. :) I have been looking forward to this new book after seeing some previews from it on Facebook. Nice combination of upbeat and motivational phrases to color and abstract image pages. The pages are perforated and the pictures are not double sided - one side is a picture and one side is a fun quote. I'm a quote junkie, but was pleasantly surprised to

discover some new great quotes in this book - they run the range from classics to lines from pop songs, I enjoyed the variety! The paper is thick but not super thick. I copy the pictures onto white cardstock so my kids and I can color them in with fine tip markers and they hold up well. If you just used colored pencils, as another reviewer noted, I am sure you would be fine with using the papers in the book. We're loving this new book!

Definitely pleased with my purchase! This Adult Colouring Books was 1 of my first online purchases of this type. I am happy I took a chance on the pictures being a nice size. If you aren't sure what colours to use, they even give you colour scheme examples for inspiration. I have 2 DesignOriginals ACB and I am planning on purchasing more. Their designs are challenging but not to the extreme that they look over busy. I have been framing each one I have completed so far. (6)

Good vibes for sure! This book is nothing short of adorable. If you can't find something to make you smile in here, well you're out of luck! This book is thirty pages of pure enjoyment! I color for anxiety and stress and it helps so very much. This is full of nothing but positive vibes and uplifting quotes. There are so much more to color than just quotes too! Hearts, butterflies, flowers, stars. They all just make your work of art pop a little more. The pages are nice and thick and on the back you'll find these great uplifting quotes and that's one of my favorite things about this brand. You really can't go wrong. The pages can be easily torn out which is also a plus for me. I dread having to pull at pages that just won't come out so by adding that little dotted line they're just making your life a little easier. There are eight pages in the beginning of the book that have been fully colored and you'll find the same pages in the book. I guess it's to help you figure out what direction you're going in. There are five pages enhanced with coloring tips. So if you're new at this don't worry you'll feel like a pei in no time! This book is a ten in my book and I would recommend it to everyone. I even ordered one for my bestfriend And had it sent to her house and she I statly loved it. I recommend buying this. Sitting down relaxing and enjoying!
