## Customer Reviews

I received the first version of this book when it first came out several months ago and have colored a few pages in it and I'm well acquainted with it overall. This newer revision or new version is much the same as far as the pages with a couple of tweaks and changes here and there such as: Design, font and additional page or two. Still this is a great book for all moms or expecting moms. You will laugh and maybe even cry while laughing at the funny and sarcastic pages of just what motherhood really is like. Even the more seasoned moms and grandmas would easily enjoy this as well. All pages are one sided and all are unique and fun in their own way. Any medium you may choose would work well in this to. Overall in my own opinion, this is a wonderful thing for moms who love to color as I do. At least when you can find the time! I received this for free in exchange for an honest review. This did or does not influence my honest and unbiased opinion based on my own experience.

With four young daughters I'm always sitting down to color with someone. One night my three year old and I decided to color and I pulled out "mommy's coloring book." As I tried to get her to color in her own, she demanded to color in mine with me as I just so happened to land on the page with a crying toddler with all of mommy's things titled "Threenager." I laughed as we both decided to color this page and my daughter thought it was great that the toddler had on her mother's heels and jewelry. Each page is wonderfully sketched with hilarious relatable mom moments. You'll want this book for yourself, you mom or a mom friend in your life. It would make a great gift for a new mom that's feeling overwhelmed with motherhood to bring a little laughter. Disclaimer: I did receive this product at a reduced rate in return for my honest and unbiased opinion.

Oh my goodness I love this coloring book!!! Before I get on about the coloring pages let me talk about the pages themselves. There are 34 of them first off. That is including the opening pages, because they turned those into coloring pages as well including a shout out to the illustrator. The pages themselves also seem great quality and do have the back of them blank to prevent smearing

on your other coloring pages. Now the artwork it's self. I just love the variety here. Love it. You have beautiful elegant pictures like the feather that says Wild Child or the #NormalizeBreastfeeding. Then you have simpler ones like the Blow Out or Laundry ones. The Laundry one also just seems like a normal coloring page like what you may see in a normal coloring book rather than the abstract ones you see in so many adult coloring books. So you have various degrees of coloring. If you feel like being abstract or basic this coloring book has that style of page. The themes also range too. You have ones that obviously illustrate the struggles of motherhood like Toddzilla, the beauty of motherhood like the #NormalizeBreastfeeding, and then the for mommy like the wine themed pages or the "I've had this much sleep today" page. It just goes across several themes of motherhood so you can kind of choose your mood. It just has such a great variety. I do want to nit pick a couple things though, but neither will reduce a star. I do wish that they would have included a picture of a mother bottle feeding. I am a breastfeeding mom and I love that I have that. However not all moms have that chance. For some moms it is a struggle and for some moms they can't do it at all. So I wish they had included a picture for that. Then just something that I wish was there for me personally. I really wish there had been something in there about cloth diapering. I love doing it but it has it's own set of humor. I have not used a diaper sprayer yet but one with a mom spraying off a diaper would have been pretty funny. Like I said though this book is generally all encompassing and I have to applaud them for that. No matter what kind of mom you are you are going to relate to SOMETHING in this book. Personally....the one with the door sign is getting colored, laminated, and stuck on my front door ^.^ I recieved this product at a discount in exchange for an honest and unbiased review. If for any reason my opinion of the product should change. I will edit my review to reflect that change. I am under no obligation to leave a positive review and have recieved no incentive to do so. As I myself rely on reviews to determine if I want to purchase something, I do my best to think from your perspective and what you would like to know of the product to make sure you don't make a purchase you will regret. This is definitely my most relatable and the most silly of my adult coloring books that I have. I really like coloring in this book. I like to get it out on the days that my children seemed extra frustrating. For some reason it makes me feel better. The pages in this book are good. I'd say about average quality. When I used gel pens they did not bleed through. When I used fineliner pens they bleed through a little, so make sure you use a piece of scrap paper under the page. The pages are printed on one side of the page. On the back of the page is a design on black paper. I don't think it's meant

to be colored on, but I colored some of the designs with my metallic gel pens and colored pencils just because it looked nice on the black paper. I recommend this coloring book to all the coloring mothers with a sense of humor.

Super happy with my purchase! I started getting into adult coloring about a year ago when i was pregnant with my daughter to help relieve stress. I just xame across this particular book and knew right then and there i had to have this! All the pictures are so cute and definitely relatable. The only reason i didn't give 5 starts is because i didn't think it was as great of quality as my other books. It just seemed like a regular kids coloring book quality as opposed to my mandala color books. Anyway if that doesn't bother you then this is a must have for all moms and expectant moms. I did receive this book at a discount for my honest and unbiased opinion. I wouldn't hesitate to purchase again at full price! :)

If you're a mom, or know a mom that needs a little comic and stress relief rolled into one, this is a MUST have. Being the mother of six - yes six, children, I can related to every single page. You really can't help but to laugh when you remember when the illustrations actually happened to you, except when it happened you probably weren't laughing. Love, love, love this coloring book and will keep my eye for more from this author. Please note that I did receive this product at a discount in exchange for my honest review.
