Customer Reviews

Making money online is not that easy, you need to learn the basics and every way in. I've read many books about passive income (since I'm venturing into one) and each book has different things to offer. This book is a great guide and will teach you the right steps in the marketing world. You'll

also learn about the basics, creating your content and tips on how to get your business going! Nice book

This book concept of passive income used affiliate marketing as a platform to monetize a blog to have a side income. It taught me all the techniques of affiliate marketing that I can use as a resource for a start up in generating extra revenue. Helpful guide.

I waded through 40% of the book before finally conceding that my first impression in the first chapter was correct. This book doesn't teach anything. It just keeps saying it will but it never actually does.

I wasn't really what affiliate marketing is all about until I have come across this book and quite frankly, this could actually be a good passive income idea. There also other concepts discussed in the book and yeah, it might just be the business venture I am looking for.
