Has the recipes in the book that you just want a small portion for a late night snack. These are made with minimum time required for that instant satisfaction of the taste buds. Got to give this one a try as it will be worth your time.

Very little good info

Excellent

I'm always on the go and more often than not I just grab something for to go, not really healthy but it was fast. I decided to change that and started to look for quick and easy meals I can make with minimal cooking skills requirement. Then I found this Microwave Mug Recipe book, which I thought was a great concept. The recipes are quick and easy even for someone who doesn't know how to cook. I've tried the Bacon Cheese and Potato soup, will try the other ones soon.

Most of the recipes are sweet. Some for breakfast meals and a few others. The directions are easy to follow.

If you're looking for quick easy to cook recipes that are tasty and fulfilling then this is the book for you. I was after recipes that didn't involve lots of preparation and faffing around and this book hits the nail on the head. It's full of great easy to prepare recipes that take minutes to put together and then when they are cooked are absolutely brilliant. Why would you not try something like this. Well put together by the author, easy to cook and great to eat.

great informative read and helpful subject matter for first time cooks

Great Kindle Read!!!
