# Sand Play!: Super SANDsational Ideas

## Synopsis

"A great book for budding sculptors with ideas for creating sand sculptures at three different levels of difficulty." —splashesintobooks  
Sculpting sand is fun for kids of all ages — especially because the magical, mess-free material is easy to handle and can be used over and over again. This book features guidelines for using sculpting sand to create cute little creatures, including a crab, lizard, caterpillar, and monkey. Author Terry Taylor provides simple instructions and lots of colorful pictures for 18 projects, as well as plenty of helpful tips, including suggestions for tools and techniques. Projects with one star are the easiest and ideal for beginners. Two-star projects are a little more complex, and the ones with three stars are the most advanced. Kids can build their sculpting expertise with simpler figures such as the clown, octopus, and butterfly and then move on to the frog, dragon, and peacock. Meanwhile, they'll develop skills that will help them express their personal creativity.

## Book Information

Paperback: 48 pages

Publisher: Dover Publications (August 20, 2014)

Language: English

ISBN-10: 0486794792

ISBN-13: 978-0486794792

Product Dimensions: 8 x 0.2 x 10.7 inches

Shipping Weight: 6.4 ounces (View shipping rates and policies)

## Customer Reviews

It's like a day at the beach in your own home! Sculpting sand is fun for kids of all ages — especially because the magical, mess-free material is easy to handle and can be used over and over again. This book features guidelines for using sculpting sand to create cute little creatures, including a crab, lizard, caterpillar, and monkey. Author Terry Taylor provides simple instructions and lots of colorful pictures for 18 projects, as well as plenty of helpful tips, including suggestions for tools and techniques. Projects with one star are the easiest and ideal for beginners. Two-star projects are a little more complex, and the ones with three stars are the most advanced.

Kids can build their sculpting expertise with simpler figures such as the clown, octopus, and butterfly and then move on to the frog, dragon, and peacock. Meanwhile, they'll develop skills that will help them express their personal creativity. See every Dover book in print at [www.doverpublications.com](http://www.doverpublications.com)

Designer and illustrator Terry Taylor lives and works in Westchester County, just north of New York City. She received her BA in Fine Arts from the State University of New York at Oswego and has more than 24 years of experience in creating unique designs and illustrations for children and adults. Her specialty is dimensional clay artwork.

A great book for budding sculptors with ideas for creating sand sculptures at three different levels of difficulty. There are six easy, seven middle and five harder different projects. Guidance on tools, supplies, techniques and tips are given before the projects. The projects instructions are clearly given, step by step, complete with photographs of what should be done at each step. Most projects have eight steps (the exceptions to this are the octopus which only has seven whilst the peacock has sixteen!) On many of the projects there may be helpful tips or possible extension ideas that could be used. These projects are ones children will find appealing and be inspired by and there is nothing to stop readers finding alternative media in which to carry them out, too! Thanks to the author and publishers for allowing me to read an advanced copy of this in exchange for this, an honest review.

Given To Me For An Honest Review Sand Play! by Terry Taylor is a book that belongs on every bookshelf and every classroom. It has great ideas for making different sand projects. There are six easy, 7 medium and 5 harder projects to choose from. Included for each one are a guide for the tools necessary, supplies, techniques and tips are given before each project. There are pictures of what each project should look like. But, of course children can just do what they want and create their own design. I recommend this to everyone and for every bookshelf. I look for more by Terry Taylor.
