Dirt Classroom: An Inspiring True Adventure Through The Australian Outback

Synopsis

At 15, I made the decision to leave home and began working on some of the worlds largest cattle stations. Over the next 2 years, I was attacked by a few wild animals, experienced unexplained phenomenon, had a massive learning curve and truly experienced the Australian outback. If you are after a story that was written to appeal to the masses and that mainstream publishers love, then this probably isn't for you. If you are after a lighthearted read that provides the raw truth about life out bush and my experience of it, then click away. I hope you enjoy. Note - mature themes.

Customer Reviews

Read this book if you want to lose yourself for just a little while in a real life adventure story and you don't mind sore cheeks from laughing out-loud. If you have teenage kids who aren't quite sure what to do with their lives or don't quite fit the mold (or if you're one of them) do yourself a favour and expand your thinking on the kind of adventure that's still possible in the world we live in today. This is the kind of story you read later in life and wonder to yourself "why didn't I do more fun stuff when I was younger." I highly recommend it!

I liked this short but very entertaining book. Casper did a good job. Loved all the "nicknames" and reasons why they were given. My husband [we are both 93 years of age] is reading it now. We have spent our life on the land and understand all the dramas of floods and fire. Having to "make do" when anything breaks down miles from home. Seems he is now enjoying his life as a married man. Well done Casper.

Excellent light, easy read with lots of humour along the way. Lots of adventures were clearly had and I enjoyed reading about the Outback but from the comfort of my own home without having to worry about snakes, growth hormone injected sheep or a million and one weird and wonderful insects!

This was a quick, entertaining read, sucking you in with tales of interesting Aussie characters as well as showing how the school of life experience can be as valuable, or more so, than any formal classroom. Would enjoy a beer and a chat with Casper!

Love his style of writing. Simple, to the point and very entertaining. Please continue with another book about your life after the outback experience.

This is an interesting account of what it is like to work on a cattle station in the Australian outback. Lots of interesting adventures were had by this young man.

Really enjoyed this book.

Enjoyed reading.
