Leverage Google[®] and Facebook[®] to grow your brand Automate your lead generation, sales and follow-up activities Access downloadable tools that put ideas into action Marketing has gone digital. Have you? Businesses used to rely on Yellow Pages, newspaper, and radio ads to drive new leads and customers through their doors. Those days are long gone. Companies today must navigate constantly-changing digital search and social channels such as Google, Facebook, YouTube, and even email and mobile to both acquire and communicate with customers. How can you keep up? Written for marketers and business owners, this book is sure to give you the competitive advantage you need. Inside: | Generate free, organic traffic Acquire new leads and customers Craft landing pages that convert Build and monetize your email list Get "social" with your customers Buy online ads like a pro Master search marketing Track and measure key metrics

Ryan Deiss is Founder/CEO of DigitalMarketer.com. His pioneering digital marketing strategies have been directly responsible for hundreds of millions of dollars in online sales. Russ Henneberry is Director of Editorial at DigitalMarketer.com. His team generates thousands of leads and sales per month by executing "full funnel" content strategies.

This book is great for the small business owner who needs a top-notch online presence and sales strategy, but who lacks the luxury of an in-house marketing department. From developing an online sales funnel to technical considerations such as title tags and building landing pages that convert browsers into customers (and ultimately brand advocates) it's all here and easy to understand. A tremendous resource for anyone who wants to market a product or service online!

Very complete for an "intro" book. Did you see whose writing it? (If you've heard of Digital Marketer, you know). Worth having just to possess their first collaborative Dummies book. Beyond that, there's good "real life" statements in here. No "magic monetization" statements-they let you know what you need to do straight-up.

If you are a Digital Marketer or SEO leading into Online Marketing this is the most up to date knowledge that is currently working to keep customers converting, Oh its Ryan Deiss!

Got the help I needed from this book because I'm a bit of a dummy when it comes to marketing in general!

The best book in the world on marketing by the best marketer in the world. You have to buy it to succeed online.

Really good book. My only issue is that it jumps around a lot. You might have to jump back and forth between chapters.

In a world of "digital marketing experts and gurus" these guys actually know what they are talking about and provide real actionable advice not fluff. Highly recommend.

Good but a bit long for me.
