History Of The Totenkopf's Panther-Abteilung

Synopsis

This book is the culmination of 15 years of research dealing with I/SS-Panzer Regiment 3, from its inception in 1942, when it was equipped with Panzer III's and IV's, until its conversion to the Panther tank during late 1943. The book covers the history of I/SS-Panzer Regiment 3 when it was equipped with Panther tanks. From the summer of 1944, Abteilung fought in Siedlce and later in the defensive battles east and north east of Warsaw. Later during 1945, the Abteilung would take part in the Konrad operations in Hungary in an attempt to relieve the forces trapped inside Budapest. By March 1945 the remnants of I/SS-Panzer Regiment 3 was in full retreat and would eventually surrender in May 1945 in Austria.

Customer Reviews

interesting but brief account of a tank battalion. Unit histories on this scale are rare in WWII history, and this, while brief, is a nice work. More pictures and details would have improved it, but under the circumstances this is a good effort.

I really appreciate the research but did not enjoy it Sorry

After receiving the author's Tigers of the Death's Head I had expected a comparable volume on the Panther Abteilung. The book seems well researched & has new information, but is more like a diary. The author states it started as a short appendix to another project grown into a short history. The photo section is the last 18 pages with mostly new (to me) pics from the veterans, mostly 1 or 2 per

page. A useful volume.

Great book.

This is a diary of the 3SS Panther Bat. To me it's a bit dry, but as it is a diary, that's OK. There is a lot of information on a Bat. I knew nothing about. A lot of B/W Photos 18 pages worth. No color plates. But for the price, one can't have everything. And as I AM NOT A FAN OF 3SS. A good read!!!
J....of....R xxx

GREAT SELLER, FAST!!!! GREAT BOOK!!! THANK-YOU!!!!

The book is just daily, day to day reports, not sure what the author contributed in this, but it's very stale and matter of fact. I thought Panzer ace Meierdrees would feature more prominently in this book but it seems he was a pencil pusher during the climatic tank battles for Poland in the summer of 44. Perhaps war gamers might find something in this worthwhile but for everyone else I would say it's not a cohesive or engaging read. The author gets a fail. Sorry.

a must for collector
