Customer Reviews

Great, but I wouldn't recommend for crayon coloring. Colored pencils are the only way to go!

Bought as a gift and was so pleasantly surprised to see such detailed and beautiful pages to color. Worth the money!

Going through a lot of these adult coloring books. Really like that the other side of the page is blank just in case your medium bleeds through.

The book wasn't what I expected at all it was misleading. I thought that it was a coloring book based on the classic movie. When it actually is based on the book by Frank Baum.

The line work in many of the pages is smeary and messy looking. Very disappointed in the quality.

I was very disappointed with this OZ coloring book. It seemed sloppily put together and the pictures just dont make sense at all Love Oz and have bought every OZ coloring book on here, and this one was a big disappointment sadly.

This is one cool coloring book and a must for any Wizard of Oz fan. Great shipping, packing and price.

Gift that was well received!!!!!
