## Customer Reviews

William Boericke: Born on October 25, 1849, he graduated from Philadelphia Medical College in 1876 and Hahnemannian Medical College in 1880. In San Francisco, he practiced Homoeopathy for over 50 years. He was a member of faculty of Hahnemannian Medical College and author of *A Compend of the Principles of Homoeopathy*, *Boericke's Materia Medica* and translator to the sixth edition of Hahnemann's *Organon*.

I bought this book to research treatments for the wife and my arthritis. I not only found it useful for arthritis but other medical needs as well. The book could use some translations from the old medical terms to new. But the book was found to be very useful to our family. Joseph Handi-Capable

Boericke's *Materia Medica* is the most consulted among the Homeopathic Fraternity, and this particular volume contains much helpful extra-*Materia Medica* material. I have no complaint with any of its speedy and efficient handling of my purchase and would highly recommend the purchase of

this material as a desk reference to a practitioner or as a handbook to a lay-person.

It's the classic Hom. Mat Med. with additions by Jain Publishers of India - who have made an awesome contribution to Homeopathy over past decades. I would like to have it in paperback, as it is larger than the classic edition published by B and T of Philadelphia. Still, grateful to Jain for keeping our literature safe and available.

This book is like a bible to me. Very precise and organized. It's thick because it covers everything.

This has been a very helpful book for my schooling and medical practice needs. Book was in perfect condition just as described

the book is damaged

Excellent. Exactly what I was looking for.

Best repertory I've purchased so far.
