Thirty destinations are presented for each month, with 11 covered in depth. Tuscany, Italy, is recommended for October, when the grape and olive harvests take place, and when porcini mushrooms, prized truffles and other specialties appear on regional menus. The listing includes a six-day itinerary on the "Chianti Trail," from Florence to Siena. --USAToday.com --This text refers to an alternate Paperback edition.

Most travel guides tell you what to see, but not when. Knowing the important cultural events of a

country or region makes a trip memorable. Equally significant to me as a photographer are the weather and seasonal conditions. Rainy seasons, extreme heat, days of overcast need to be considered when I travel. I especially like to know when flowers are blooming. The notes in the margin make a quick study of learning the basic facts regarding getting there, getting around, accommodations, eating, and prices for two people. The excellent photographs are well-chosen. Just when I think I don't need another travel book, this one is published. It's a beautiful and useful book and would make a great gift for someone who enjoys travel.

There's rarely a time in my life when I'm not thinking of another trip to go on or new destination to explore. Though, it's not always easy to find the best times of year to visit certain areas of the world. When does it rain most? What is most common for tourists? When are the big festivals? This book has it all. To me, it's a great coffee table book, conversation starter and dream-discussing book. As a guide? I wouldn't recommend it, but that's not its purpose. It offers beautiful imagery, vivid colors and easy-to-read information for all times of the year.

Want to be transported without the hassle of airport security, fees for checked baggage, or cramped airline seats? Then this Eyewitness Travel Guide is a must have. As an avid world traveler, I have my top 10 list of where I want to travel. Yet when I feel the urge to get away without a moment's notice, I just open up "Where To Go When" and slip into an effortless travel experience. The photos in this book are exquisite. Information highlights about each destination are brief yet informative enough for trips from the couch. While I would not recommend going to a number of the places during the time of year suggested, I do highly recommend the enjoyment of this guide for intriguing picturesque travels in the comfort of your home.

This is a must for anyone who loves to travel or even to just read about it. There are so many wonderful places to explore through this amazing book. It has a great set up as each section is divided by the month. Each month lists 30 locations, in which 11 of them are written in detail. For each of the 11 featured locations, the book has a write up, an itinerary, and dos and don'ts. Furthermore, each location also includes: Getting There, Getting Around, Weather, Accommodations, Eating Out and Price for Two. Included for each place is a website listed for additional information. Spectacular photos too! A smorgasbord of the senses!
