Customer Reviews

I like this book because as a worshiper and worship leader I have experienced all kinds of feelings during corporate worship and Bob explained them to me and I thought...OKAY that makes sense. He teaches about the river Ezekiel prophesied about and how to stay in and flow in that river. And not just stopping there but how to let the worshipers take over in their fire and love of God to a new place operating in freedom to prophesy, receive healing, and for non-believers to experience God's tangible presence and leave knowing THAT was God. It was super practical and I feel like I could

apply what I learned right away! Thank God for this book!

This is an incredible book! Bob Sorge has articulated what is on the heart of many lovesick worshipers of God. People who lead worship, and not just worship pastors, need to get a hold of the concepts that he presents. This isn't a manual on how to "do" worship, it is a primer on how to "be" worship in a corporate setting. I've been to the place of worship he describes a few times, we've hit it in our congregation a few times, but what the author describes would take us from just wishing it would happen again someday, to the expectant hope that we could demonstrate and experience this level of worship consistently in our corporate gatherings. In the span of one paragraph I found myself deep in the Spirit, then crying, then laughing, then yearning for more! Don't miss this one.

Great revelation on worship and ushering in God's presence.

If you want to get out of the "2-fast-3-slow, and a hymn-&-a-headers" way of "doing worship" at your place of worship, then this is the book for you. It explains the who, what, where and why of worship, and how to get closer to God through it. If you are open to some changes, you won't be disappointed.

If you want a clear understanding about getting into the river of God and increasing your intimacy with him read this! You will be blessed!!!!.

This should be required reading for every person on the Praise and Worship Team.

A fireball of a book

This book helped answer some things we'd been experiencing, but just didn't know was to be expected. The insight gave us more confidence that we were on the right track while empowering us to get on the track, stay on it and "go further" in worship!
