Customer Reviews

"Tessa once again in Dog Designs illustrates her subject matter with a mature and sophisticated hand, ranking her among the very best draftsmen in the glass design industry."

used two patterns so far in this book

I purchased the book to give me some inspiration for appliqué and thread painting techniques. I'm sure this is going to help me a lot because I don't have any sketching/realism talents of my own!

A good little book of patterns, however there are no breeds listed

Love them. I wish I had these patterns years ago . They are so easy to use.

We bought this book for a pattern to make a Lab out of stained glass. The patterns are cute and obviously a lot of work went into them, but some of the dogs are unidentifiable. The dogs are only listed by their names and not their breeds which further complicates matters. We are going to show the pattern we think is a Lab to the person we were going to give it to and if they approve it, we will keep the book. Otherwise, back it goes to .I use for most of my purchases and update my reviews if anything changes with the products. I do this so other users can get a real feel for the life of the product. You can look at my review which will be close to my purchase date and tell how the product is doing as time passes. I am not associated with any company and all opinions are my very own.

but not if you're looking to use the patterns for stained glass, unless you have a ring saw. Not well thought out for glass panels.

Using for applique. Great patterns

I do not do stain glass but will use the information/patterns to make my quilted stained glass wall hanging.
