# Trumpet Concerto: Canadian Brass Solo Performing Edition With A CD Of Full Performance And Accompaniment Tracks

## Synopsis

(Brass Solo). Canadian Brass Solo Performing Editions feature trumpet parts, piano reduction accompaniment, and a fantastic CD featuring two tracks: a full recording by Canadian Brass trumpeter Ryan Anthony, plus an accompaniment-only track for play-along practice. Includes two score inserts for the trumpet part: one for E-flat trumpet, the other for B-flat trumpet.

## Customer Reviews

simply awesome. great arrangemnet. music is printly nicely with good page turns. wonderful resource and lots of fun. get it

There's only the piano part and CDThe both of trumpet parts are missed

Very Good rendition and very helpful CD piano accompaniment. The only thing I could complain about is I would have liked the performance track to have been at the same tempo as the accompaniment track. The performance with trumpet is played at a little faster tempo.

You cannot view it enough to play. In the Kindle app for PC it does not view legibly and you cannot print it. I have a 10" Samsung tablet and can sort of view it there. Would be nice to be able to view or print it, kind of useless.UPDATE: OK I'm an idiot.... Double tap enlarges it

wasnt what i needed

Hummel concerto for trumpet is long long piece of music. It also has notoriously famous long intro to the solo that takes ages. What have the publishers of this play-a-long CD made? No chapter stops! This CD has only 6 tracks (3 for performance and 3 for practise) based on the concerto parts! So you start part 1 ....and wait...wait...now comes your turn to play...oops...made a mistake. Start over. You start again.....and wait...wait...wait...In practise this means that you end up waiting for ages for your turn to play!!! This must be evil joke? This product is pretty much useless for anyone who wants to practise the concerto. Also the piano track sound quality is somewhat muffled. This kind of sound is not the best what you can achieve today. Plus for Eb and Bb parts.

This is excellent for trumpet players that want the sheet music, the professional example, and piano accompaniment in order to learn and perform the music with or without the accompaniment. The only criticism is that the piano seems a bit muffled. An interesting sidelite is that the accompaniment portion without the trumpet is at a slower tempo in the Rondo, which is probably beneficial for the novice.
