## Customer Reviews

Uh, first off this was poorly written and badly (or not) edited. Right off the bat I look for the obvious, and when I see poor writing I am immediately turned off. I read other reviews stating the same thing, and they are right. Also, it's one dinky book, and hardly worth the expense. I felt a little 'taken advantage of' with this purchase.

Seems silly in some portions, especially the over use of the word "positive". I get that saturation of a word helps manifest it but over saturation just turns me off to it. Definitely not worth what I spent.

This book was an absolute waste of money. The only real information included was very general, and could easily be found on wikipedia. Spelling and grammar was atrocious. It looks like the author was just trying to bang out mediocre content in the shortest time possible.

I never thought hypnosis is a real thing until i have read this book. At first i found hypnosis intriguing and on a negative light but after reading this book Hypnosis on the other hand is truly amazing and can help people alleviate their pains and negative feeling about themselves. If you want to learn hypnosis this book is a way to start as a beginner.

I was kind of septic before reading this book , but after starting reading it i realized that this book was well structured and giving real information with some stuff that i didn't even know , i liked the honesty from the author and the shown researches about hypnosis , this book also deals with the myths of Hypnosis that people may believe with what's shown in the media ,i recommend this book to anyone looking to know better hypnosis !

The topic of the book Hypnosis caught my attention and I bought it right away to learn about Hypnosis. The book starts by telling us what is Hypnosis and how can hypnosis be helpful. Then the book moves on to how to do Hypnosis and how to Hypnotize your friend. The book also discusses on Instant Hypnosis and self hypnosis method. The book was really interesting, I really enjoyed reading through the book.

Learning hypnosis is an advantage to us as this can be help on dealing issues daily, it is somewhat knowing how to control ourselves to do only good things.I like how this book was written, I have learn that hypnosis is the way how to open our subconscious mind, however, the effect is vary depending with each persons behavior. I rated 5 star for this book which I considered worth to read with.

Wow! I am so amazed on this book truly. I never thought that hypnosis is a form of art for me. Not everyone can do this especially what is discuss on Chapter 5 of this book. Instant Hypnosis can

never be instant and simple if you are not talented on it. This art is not bad at all. As far as I know until the time I read the book Hypnosis can be helpful at times. Great writing!
