# Ride-along (Bounty County Series Book 1)

## Synopsis

Chloe Tisdale is a fun-loving woman with a crappy job, no current prospects for romance, and the apparent inability to listen to instructions from demanding men. After a run-in with a creepy stalker, she heads for Imminence, Montana to hide out and party with her wild, foul-mouthed cousin. Conveniently for Chloe, her cousin's husband just happens to be the Sheriff of Bounty County. Unfortunately for Chloe, however, one of the Sheriff's deputies is the easy-on-the-eyes-but-incredibly-bossy Justin Hunt, who broke Chloe's heart into a thousand pieces just one year earlier. And unfortunately for everyone in Bounty County, Chloe's stalker follows her to Imminence. Despite dealing with commitment issues, when Justin learns of the danger that Chloe is in, he immediately steps in to protect her. Will sparks fly again? Will Justin learn to love? Can Chloe ever forgive him? This book has a high heat index, contains adult themes, and is suitable only for 18+. **WARNING:** Sexually explicit and foul language. Ride-along is the first in the Bounty County series; each book in the series is stand-alone with an HEA ending, but characters and story lines for future books may be introduced, so the series is meant to be read in order.

## Customer Reviews

Hind sight is always a kick in the pants and even more so for Chloe and Justin. This is no simple boy meets girl romance it has hurdles, real life complications and shift hit the fan moments. The woman in this book are not wall flowers they have spirit, pride and survivors with empathy and a heart of gold. The boys Alpha males and Cops so morale creed in their fiber. Takes tough woman to support their career choices. This is a perfect book for someone that has hit bottom n is struggling. This has inspiration and to not think damaged but seasoned and to take pleasure in here n now and to dream of the future. Not a book for clean Christians this has some sexual sizzle going on here.

Ride-along is book #1 in the Bounty County series, which takes place in the small town of Imminence, Montana. Ride-along is an interesting mix of very steamy sexy times and suspense. Although I had a few issues with the editing and character development, overall I thought this was a pretty fun read. Chloe's going through a rough patch. Her heart was broken a year ago by Justin, who declared that he wasn't the right man for her, despite their mutual feelings for each other. In an attempt to get back into the dating scene, Chloe tries online dating but runs into some very bad luck when one of her matches turns out to be a crazy stalker. Chloe temporarily escapes to Imminence, where her cousin lives. It's also where Justin lives and works as a deputy sheriff. When Chloe and Justin run into each other again, it's obvious that they both still have a strong attraction to each other. But Chloe is hesitant to get involved again after what happened between them. It turns out that Justin has some past heartache of his own, which is why he's so phobic of commitment. But now that Chloe is back in his life, he needs to have her, one way or another. The two agree on a casual arrangement, which works out fine for the meantime. When a third person is introduced into the bedroom, it soon becomes clear that Chloe and Justin want more from each other than just sex. Meanwhile, Chloe's stalker is still on the loose. When the stalker shows up in Imminence, Justin wants nothing more than to keep Chloe safe. I loved how protective Justin is, but Chloe shows some poor judgment at times when she doesn't seem to understand how much danger she's really in. Likewise, Justin doesn't seem to make the best choices when it comes to communicating with Chloe. She's in real danger and I think they both could have handled the situation better. That being said, the romance elements definitely worked for me. Since Chloe and Justin have history together, I found their reunion convincing since it was clear they had unfinished business. There is one menage scene which is super hot, but I had mixed feelings about it since Chloe didn't have an

established relationship with the other guy, especially considering she'd never done anything like this before. However, the scene served to expose Justin's true feelings about Chloe, so in that sense, it definitely worked. Additionally, I felt that Chloe's cousin and her husband were well developed as characters, to the point where I found myself wishing I could read a prequel about their romance. Lastly, I ran across some editing issues (typos and general grammatical things), but nothing so extreme that I couldn't easily overlook them and finish reading the book. I'd recommend Ride-along to fans of Lorelei James (for the high heat level as well as the western setting). Overall, I enjoyed the story and look forward to reading the next book in the Bounty County series. A copy of this book was provided to me by the author.

4.5 Stars!!!! to "Ride-along" by author Maren Lee! First I'm going to assume that this is the first book by this author as I haven't seen any other books listed on Goodreads. That being said, I loved it! The writing was well done. Maren's characters were sexy and witty with realistic and sometimes outrageous dialogue. I laughed often at some of the things that came out of their mouths. Filters? Nope! The pace of the story was fairly steady with just a bit of a drag in the beginning pages. There was suspense going on throughout the entire book in the way of a psychopathic stalker. Our couple, Justin and Chloe, had a lot of alone time drawing them emotionally closer despite the fact they insisted on keeping things casual. In fact, they were rarely apart. I would have liked a break from their togetherness now and then, hoping for more stalker action which basically stayed in the background until the last 20% or so of the book. Hey, not complaining, just stating. But when that plot headed to its turning point? I couldn't sit still! Wow! As I read I became frantic and panicked as badly as Justin. And that was bad! I loved seeing Justin's reaction to the danger Chloe was in. He was a mess. And if I doubted his love for Chloe, his reactions totally proved me wrong. Truthfully this was my favorite part of the book and that says a lot because I loved "Ride-along!" Have I read this trope before? Yes, many times. However this book was hands down the best I've read in a while. I know we all have that author where their style appeals to each of us. And we don't all have the same opinions. But Maren Lee had me enthralled. That being said, you may be wondering why I only awarded 4.5 out of 5 stars? There were quite a few editing errors. :( There were enough that my reading paused several times to re-read sentences interrupting the flow. So that's my only complaint. Chloe Tisdale was a likable character. She was intelligent, sexy, impulsive and had no problems saying things that would have most of us blushing. However, she was a bit immature at times. Chloe did a poor job with taking her own safety seriously and as a result she made some poor choices. Chloe and Justin had history. One year prior he broke her heart. Crushed it! I wish

Chloe would have made Justin work a little harder for her attention. I love a groveling Hero. Justin was written well. OMG, he was a hot cop with a perfect physic and such a dirty talker. What a panty melter! From the first pages I knew he was book boyfriend material. Okay. Now I have to admit to one tiny thing about him that had me occasionally frowning. I like dominance in my heroes but Justin was downright bossy sometimes. Justin and Chloe took insta-lust to sexy, sensual level. They could not keep their hands off each other. It may have started as lust but there was a base for more and I loved watching their lust turn into love. Especially with Justin. There were secondary characters that I loved. As a matter of fact, I believe Jake and Lane's story is in the works. Yea! Maren, if you ever read this review, I'd like to ask you if there is a possibility for a prequel? I would love to read Sierra and Brandon's story. I loved those two. Sierra is outrageous! I definitely have this author on my watch list!

"No booty on duty" I just love this quote from the book! What a great read for Maren Lee's first book! I love most about this book is that Justin and Chloe's relationship starts off right from the beginning. And their romance is hot, hot, hot! I can't wait to read more of the Bounty County series and see what is in store for this small town police department!
