I like eating sushi, and I want to learn to prepare myself. This is a great beginners guide to making sushi. Any beginner may have hang ups on preparing sushi but this book will give you the confidence and expertise. It makes the cooking fun and delightful while relishing these delectable and scrumptious Japanese delights!

Fantastic resource! Great instructions including pictures, excellent for when getting started. Recipes are straight forward, plus explain how to expand variety. Very easy instructions if you have first taken a cooking class. Item received in exchange for my honest review. This is a great book that I would highly recommend!

This is such a great book! I love sushi, though I have never been good at it at home. I love this book. There are several different types, and this book includes skills on how to make this, as well as recipes. This book also goes through the specific technique on how to make the sushi. It also gives history of how it has changed as this tradition has moved through countries. This book teaches you

everything from cooking the rice, cutting the fish, and step by step instructions from there. The soups and salads is a plus for sure. I know my husband is very happy we bought this book. If you're a sushi lover, you have to try this. Its the best. You can't go wrong with it.

Very informative. It is not in color though which is the only thing i saw that caught be off a bit but its not that big of a deal at all to me. I am very happy with this product and would tell anyone to get it. Very easy instructions if you have first taken a cooking class. Thanks!

I'm amazed by how much fine recipes this cookbook offers. You can find awesome breakfast and lunch recipes with these sushi rolls and sushi bowls. My favorite recipes are Outrageous Sushi Bowl and Lively Flavored Sushi Rolls. Glad I found this cookbook so that I now cook much more versatile food on a daily basis. I recommend this Japanese cooking book to the all cousin creatives.

Sushi at Home book received in exchange for an unbiased review. Really has lots of information and direction in Sushi making. I loved finding out that there is even vegetarian sushi for my friends that don't eat meat! I loved how detailed the reviews are as well. If you're a sushi lover, you have to try this. Its the best. You can't go wrong with it.

I read through this, and will probably never use it. I don't even remember what's in it...obviously nothing exciting.
