Write It Right - Book 1: Written Lessons Designed To Correlate Exactly With Edna Mae Burnam's Step By Step/Early Elementary

Synopsis

(Willis). The Edna Mae Burnam Write It Right series is a valuable aid in creating well-rounded young musicians. The delightful lessons and exercises are designed to perfectly correlate with those in Burnam's popular Step by Step series, with specific page numbers linking lessons between the two so that concepts can be reinforced. Through the written exercises the student is able to better assimilate concepts learned in the piano lesson, and the teacher better able to gauge how much a student truly understands those concepts. Endearing classic illustrations add to the appeal of this time-tested series.

Average Customer Review: 4.7 out of 5 stars 10 customer reviews

Best Sellers Rank: #168,309 in Books (See Top 100 in Books) #112 in [Books > Arts & Photography > Music > Theory, Composition & Performance > Exercises](#) #477 in [Books > Arts & Photography > Music > Songbooks > Piano](#) #622 in [Books > Arts & Photography > Music > Instruments > Piano](#)

Customer Reviews

The book is ok, my girl didn't get into it and too easy for my son. I didn't purchased any more of write it right, because in the step books you also have some writing exercises to remind you. I guess if I was a piano teacher I may buy them for the students as homework.

Very easy since I had a few years of lessons as a child. I just did a quick review on the three Level 1 books, then went on to level 2. I love the way she doesn't overload a student with too much at once. Some adults might find it boring, but I feel a measure of success!! I love the sweet drawings.

the students really seemed to benefit from this item thanks. beginning students often have difficulty with remembering the notes and writing them down seems to help

Great gift.

This is a very easy to understand learning tool for any beginner. My daughter did great with it and learned a lot from it.

This series was recommended to me by a piano teacher. She was right on the money. This is a great book and I would pass the recommendation on to anyone. My grand daughter has done very well with the books.

Proper technique and note review are essential and must be ongoing. That is why I like the written lessons. I appreciate the correlation.

Wonderful
