Customer Reviews

I bought several beginning chapter books for my 6 year old, hoping a series would click with him and he want to read more. That's just what happened with Roscoe Riley. After book 1, he was hooked. They are really cute stories. Roscoe gets himself into trouble with his mischievousness, but he's a good kid. My sons laughs out loud when reading these books. And he loves that they always follow the same format, chapter one always starts out with Roscoe in time out. Definitley would recommend these books for a first or second grader.

My son loves this series. It is a great for those beginning to read chapter books. Chapters are short and he enjoys the sense of accomplishment when he finishes. We have enjoyed reading several in the series and have begun to recognize the similar structure the author uses with each book which is helping my son develop his writing as well. Storyline begins with Roscoe in time-out, and then the bulk of the story explaining how he got there. I like the hidden lesson within the story. My son enjoys reading them and I would recommend them.

My first Graders LOVE these books! We're ready for MORE! Tap dancing is not just for girls! My kids in class mention these issues all that time! "That's for GIRLS" or "That's for BOYS!" This was a fun way to touch on that with them.

RRR books are amazing and loved so much by my kids what a great series for reading

These Roscoe Riley books are adorable!

My second grade grandson loves this series. I bought them all for him and he reads with real expression, so it is a treat to listen to him. We have always loved the ridiculous in stories and this really appeals to kids of this age.

This book was not good and it was very interesting. I did not like it at all. If I could redo the book it would still be better

It is a fun book. My 2nd grader loved it. We both enjoyed reading all Roscoe Riley series. It really helped us to make our son to like reading.
